Care For Work Environments®

PRODUCT OVERVIEW :

POWERFUL BACTERIA

Aqua Jolt Bio-Enzyme Packets are a powdered formula of cellulase enzymes, hyper cellulase producing bacteria and cold weather bacteria. Aqua Jolt Bio-Enzyme Packets accelerate the breakdown of organic debris and sediment from fallen leaves and accumulated dead organic waste found in ponds.

VERSATILE

Aqua Jolt Bio-Enzyme Packets are versatile and produce optimum results: depleting the food source necessary for algae growth, removing muck and excess nutrients, and keeping the water clear and clean.

ADVANTAGES

- Increases natural bacterial activity to improve water clarity, cut surface scum and reduce bottom solids
- Self dissolving packs for easy distribution over lagoons and ponds
- Wide working temperature range 38°F-98°F (3°C-36°C) allows bacteria to work in early spring and late fall
- Competes for same food source that algae and duck weed need to survive

DIRECTIONS FOR USE :

Water soluble packets should be tossed into the pond according to the rates below. The chart below assumes that the waters have been significantly fouled. For less fouled waters, contact your sales representative for a treatment schedule.

Size of Pond (GLS.)	1st App	First 4 Weeks	Monthly
5,000-10,000	2	1	1
10,001-50,000	8	3	3
50,001-100,000	12	5	5
100,001-300,000	20	8	8
300,001-500,000	28	10	10
500,001-1,000,000	40	16	16

TECHNICAL DATA :

APPEARANCE: Tan powder

STORAGE CONDITIONS: Store in a cool, dry location. Keep container closed when not in use

ODOR: Organic

SHELF LIFE: 24 months/unopened container

OPTIMUM pH RANGE: 6-9

TEMPERATURE RANGE: 38°F - 98°F (3°C-37°C)

BACTERIA COUNT: 5 BILLION/GRAM.

PACKAGING

123180

25 LB Bucket/ 50 Packets
