

GENERAL CLEANING *Solutions*

- Cleans and polishes a wide variety of wood surfaces
- Easily removes dust and fingerprints
- Leaves behind a refreshing lemon scent

CARE FOR WORK ENVIRONMENTS®

Clean, polish and wax a variety of surfaces around your facility with State Lemon Furniture Polish™ RTU. This product is specially designed to be used with our State Custom Wipes™ system. The easy-to-use wipe will provide a fresh lemon scent after cleaning and polishing your wood surfaces.

CUSTOM WIPE COMPATIBLE

While you can use this as a spray, we highly recommend running this through our State Custom Wipes™ system. With no more than one quart of product, you can create your very own cleaning wipe. This system does not oversaturate the wipes. This will help avoid any spray or leakage onto the floor, eliminating slip hazards from your facility.

FRESH SCENT

In addition to providing a beautiful shine, State Lemon Furniture Polish RTU also has a pleasant lemon fragrance that freshens its surroundings. Long after an area has been cleaned and polished with State Lemon Furniture Polish RTU, people will still be able to detect the lasting lemon scent.

DIRECTIONS FOR USE:

Spray State Lemon Furniture Polish RTU lightly onto surface or a soft, clean, dry cloth. Wipe immediately.

Note: Do not use on any floors. Do not overspray, floor surfaces may become slippery.

State Lemon Furniture Polish RTU is compatible with the State Custom Wipes. When making a wipe, make sure to wear all proper Personal Protective Equipment (PPE) before and during handling, and wash hands after handling.

FOR ONE GALLON CANISTER

Remove the lid of the State Custom Wipes canister. Place a roll of wipes in the canister. Wearing proper PPE, pour one full quart of product evenly over the top of the wipes. Once poured, reach inside the canister to the middle of the roll of wipes through the hole in the center of the lid. Press the flap down firmly to close.

FOR SMALL CANISTER

Remove the lid of the State Custom Wipes canister. Place a roll of wipes in the canister. Wearing proper PPE, pour 1/3 of a quart of product evenly over the top of the wipes. Once poured, reach inside the canister to the middle of the roll of wipes through the hole in the center of the lid. Press the flap down firmly to close.

TECHNICAL DATA
