# Grease Slayer

## Safety Solvent Degreaser

### POWERFUL DEGREASER

Grease Slayer's powerful solvent formulation attacks greasy deposits on contact. Blast action flushes hard-to-reach places. Evaporation is controlled and complete with this product. It leaves no residue to attract dirt and grime, and there is no need to rinse the equipment.

### SAFE TO USE

Grease Slayer has no flashpoint and is completely non-flammable, so there is no need to worry about flammability hazards. Grease Slayer has a dielectric strength of 15,000 volts and can be used on electrical equipment without concern about shorting out equipment or shocking workers. It does not contain chlorinated solvents

### GREASE SLAYER'S MANY USES:

Air Condensing Motors, Air Conditioning Systems, Aviation Engines, Oil Tanks & Radiators, Bearings, Control Points, Dewax Machines, Electric Motors, Elevators, End Bells, Stator Frames, Rotors, Fire Alarms, Intermediate Gears and Mechanical Equipment Motors.

### DIRECTIONS FOR USE:

Simply spray Grease Slayer on the area to be degreased. Use the special polyethylene extension tube for hard-to-reach places.

Please review label and SDS for all product directions, precautions and first aid information.

### TECHNICAL DATA:

**APPEARANCE:** clear aerosol spray

**ODOR:** solvent

**FLASHPOINT:** none

**RESIDUE ON EVAPORATION:** none

**DIELECTRIC STRENGTH:** 15,000 v

**SOLVENCY:** excellent for oil, grease, lubricants

**MOISTURE DISPLACING PROPERTIES:** good

**TYPICAL ELECTRICAL APPARATUS CLEANING APPLICATIONS:** generators, motors, control panels, instruments

Acceptable for use in Federally inspected meat and poultry plants.

We recommend the use of protective gloves and safety glasses with side shields while using this product. If swallowed, do not induce vomiting and contact a physician immediately. If in eyes, immediately flush eyes with cold water for at least 15 minutes and contact a physician. Avoid prolonged inhalation of vapors.
