CARE FOR WORK ENVIRONMENTS®

Line Bac'R™

Drain Line Maintainer

WHAT IS LINE BAC'R?

Line Bac'R contains a combination of seven specific bacillus bacteria designed to reduce fats, oils and greases (FOG). Spore-based (bacillus) bacteria can withstand fluctuations in pH and temperatures, and will revive themselves when conditions improve.

HOW DOES IT WORK?

Line Bac'R is a powerful combination of bacteria and produces enzymes that quickly help to breakdown fats, oils and greases. This provides the food source for the bacteria to multiply and aggressively digest what remains of the FOG. Line Bac'R digests proteins, carbohydrates and cellulase as well. State's patented odor-eliminating technology, SE-500® is included ensuring nasty smells are neutralized

APPLICATIONS

- Lift Station
- Injection Pits
- Digesters

TECHNICAL DATA

APPEARANCE: milky liquid

ODOR: Morning Fresh™

pH RANGE: 6.5 - 8.0

TEMPERATURE STABILITY RANGE: 55°F - 113°F (13°C - 45°C)

WATER SOLUBLE: yes

BACTERIAL COUNT: 200 million cfu/mL (757 billion cfu/gallon)

FAT DIGESTING ABILITY: excellent

STORAGE CONDITION: Store in a cool place. Keep container closed when not in use. Do not freeze.

STABILITY: minimum one year

CAUTION

Strong acids, caustic or lye, destroy bacterial action. Never use Line Bac'R in conjunction with or following disinfectant products as bacteria will be killed. Line Bac'R works best at room temperature to slightly warm conditions. Activity and results may slow with cold temperatures. Please review label and SDS for all product directions and precautions.
