# NEW ERA

## Industrial Strength Degreaser and Parts Cleaning Solvent

### POWERFUL PARTS CLEANER

NEW ERA's naturally derived soybean solvent quickly attacks dirt and grease on parts. Even parts with caked on grime are easily cleaned with NEW ERA. It is the perfect match with State's EverClear™ Parts Washing System. Together, parts cleaning is easier and more cost-effective.

### VERSATILE DEGREASER

NEW ERA can also be used to clean walls, floors, appliances, porcelain fixtures, ceramic tile, exhaust fans, chrome surfaces, stainless steel counters, steel furniture, quarry tile, greasy kitchen floors and almost anywhere that grease is a problem.

### AUTHORIZATION

NEW ERA meets the requirements for use in Federally inspected meat and poultry plants. NSF Certified C1 rating. Also NEW ERA has no added fragrances, so it is ideal for use in food handling areas.

### DIRECTIONS FOR USE

In a Parts Washer, remove all the loose dirt and grime, wash the parts and then agitate by brushing. Wipe or blow dry. For soak tank cleaning, simply immerse the parts to be cleaned, allow them to soak, then remove and wipe or blow dry. Leaves no residue when thoroughly dried.

**Note:** Use caution around plastics and avoid prolonged contact with solvent-glued joints in PVC pipes. Avoid prolonged contact with paint. Concrete floors may be stained and/or pitted if prolonged contact occurs. Not for use on vinyl or resilient tile floors.

### TECHNICAL DATA

**APPEARANCE:** blue/green liquid

**ODOR:** fragrance-free formula

**SOLVENT PRESENT:** naturally derived soybean based solvent

**FLASHPOINT:** > 275°F

**VOC Content:** 0%

**DIELECTRIC STRENGTH:** 35 kv

**BIODEGRADABILITY:** within 28 days, 85-88% degradation in water (Similar to dextrose)
