Care For Work Environments®

PRODUCT OVERVIEW :

INSTANT KILL ON CONTACT

Zero In WAS® delivers powerful, fast acting results that kill wasps, hornets, bees, and yellow jackets instantly on contact.

SPRAY FROM A SAFE DISTANCE

Target nests and hives with precision from up to 20 feet away using the powerful long-range spray.

ELECTRICAL-SAFE FORMULA

With a dielectric strength of 47,300 volts, it's safe to use around electrical equipment and power sources.

INDOOR & OUTDOOR VERSATILITY

Ideal for use in warehouses, parking garages, picnic shelters, and other indoor/outdoor nesting sites.

DIRECTIONS FOR USE :

Carefully read all label instructions before use.

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. Remove protective cap. Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest.

To kill wasps, hornets, yellow jackets and bees under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray for about 1 - 2 seconds or until surfaces are moist.

TECHNICAL DATA :

APPEARANCE: clear

ODOR: solvent

CONTAINS NO OZONE DEPLETORS:

No 1,1,1 - Trichloroethane or other chlorinated solvents

FLASH POINT: >200°F (60°C) (TCC) Combustible

ACTIVE INGREDIENTS: Tetramethrin [1-Cyclohexene-1,2-dicarboximido) methyl 2, 2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate] 0.10%
Permethrin 0.25%
Piperonyl butoxide..... 0.50%

AUTHORIZATIONS:

Environmental Protection Agency (EPA). #44446-71-70799

WARNING: Zero In WAS® Wasp & Hornet Killer is combustible. Do not spray around heat, sparks or open flames.

Please review label and SDS for all product directions, precautions and first aid information.
