STATE CONTACT AND CIRCUIT BOARD CLEANER™

PRODUCT OVERVIEW :

SAFE ON PLASTICS

State Contact and Circuit Board Cleaner is a highly effective blend of solvents that are fast drying, non-conductive and safe to use on plastics, rubber and metal. This product does not contain CFC's or HCFC's and is ozone safe.

EXCELLENT CLEANER

This product works quickly to remove oil, grease, dirt and grime from circuit boards, computers, magnetic tapes, printed circuits, gauges, switches and relays. It has many uses in offices, factories, apartments and condos, industrial plants, schools and hospitals.

PREVENTIVE MAINTENANCE

Use State Contact and Circuit Board Cleaner to prolong the life of electrical components and help prevent the formation of corrosion or carbon deposits that may impair equipment operation.

DIRECTIONS FOR USE :

Do not use on energized electrical equipment. Allow product to dry and fumes to be completely evacuated before equipment is reenergized. Spray State Contact and Circuit Board Cleaner liberally onto contact surface from about 12 inches away. Use the convenient extension tube for pinpoint spray application. In case of corroded surfaces or heavy carbon deposits, it is recommended to use a brush. Spray enough State Contact and Circuit Board Cleaner to allow dirt accumulations to rinse off before reactivating system.

TECHNICAL DATA :

COLOR: clear

ODOR: solvent

COLD STABILITY: 0°F

SPECIFIC GRAVITY: approximately 0.71

SHELF LIFE: 2 years

* Extremely flammable and must only be used on equipment that has been de-energized.

PACKAGING

129247-12

11 OZ Aerosol/CS12
