Sate®
Since 1911

CARE FOR WORK ENVIRONMENTS®

FOGMASTER^{JR.}

With State Chemical's Fogmaster Jr. and Kontrol® odor neutralizing products, even the largest rooms can be quickly refreshed. When combined with State's odor neutralization program, the Fogmaster Jr is ideal for treating difficult odor problems in large indoor areas.

The Fogmaster Jr. uses a powerful 1/4 horsepower motor to evenly distribute odor neutralization several feet into the air to treat difficult to reach spaces such as ceiling tiles and drapes. Because the Fogmaster Jr produces a small particle size, odor neutralization is more efficient — saving you money and time. The Fogmaster Jr. comes with an adjustable spray nozzle allowing you to dial in the type of odor control you need (light for air, medium for drapes and walls, heavy for carpeting). The Fogmaster Jr. produces an adjustable fog from 15 to 40 microns in particle size.

The lightweight and easy-to-use Fogmaster Jr. can be used for odor control in:

Car Detailing	Rental Car Turnaround
Hotel Room Smoke Odors	Treating Pet Stains
Bar Smoke Odors	Party Rooms
Conference Rooms	Carpeting Odors
Lobby Odors	

State Chemical has been delivering odor control solutions for several decades. We offer several odor control strategies to meet the specific needs of your facility. Your State Account Manager will review your facility with you and recommend the combination of odor control solutions that best address your needs.

DIRECTIONS FOR USE:

1. Twist the power head to detach the tank
2. Pour in State Chemical odor control solution:
Kontrol®, Ecolution® Odor Remover or Fresh Zone™ 1 - 10 OZ
3. Fill with tap water
4. Attach the power head and twist one half turn, make sure tank gasket is in place
5. Plug unit in using a polarized extension cord
6. Slide the on button up, unit will begin to spray
7. Adjust the fog:
 - Turn to a dryer light fog for open air space
 - Turn to a medium fog for walls, ceiling tile, and fabric
 - Turn to heavy fog for carpeting and concrete floors
8. Use an even sweeping motion making certain to cover the entire target area. Avoid over wetting surfaces.
9. After use, empty the Fogmaster Jr. and rinse with fresh tap water
