- Concentrated descaler
- General scale remover for steam tables and hard surfaces
- Non-foaming formulation

**DSSI#6747117**

Avance™ Lime Eliminator is a concentrated effective formulation for removal of hard water build up in dish machines and hard surfaces. Hard water or lime deposits in your dish machine will clog wash arms, spray jets and machine parts making the machine less effective. Avance™ Lime Eliminator is formulated to eliminate deposits and restore machine efficiency quickly. Avance™ Lime Eliminator is concentrated reducing product requirements for effective cleaning.

# Lime Eliminator

## directions

Avance™ Lime Eliminator is an all purpose lime solvent.

**For cleaning Dish Machines:** Fill up tank 2 inches below the overflow level of the drain. Pour 2 cups to 1 gallon of Avance™ Lime Eliminator into the machine, adding product to each tank of multi-tank conveyers. Turn the heater on and start the machine. Run the machine for 5 minutes or until the lime scale dissolves. Drain tank. Refill machine and operate normally. Use as needed to prevent further build up.

**Glassware (water spotting):** Add one ounce of Avance™ Lime Eliminator to 3 gallons of water. Soak glassware to remove spotting. Process glassware through regular wash cycle and return to service.

**Drain Boards, Sinks, Faucets:** Use Avance™ Lime Eliminator to keep drain boards, faucets and sinks free from dulling white deposits caused by hard water. Apply Avance Lime Eliminator directly on area to be cleaned and wipe with a damp cloth.

**Utensils:** To clean stainless steel, copper or brass tableware and cooking utensils, mix 3 ounces of Avance™ Lime Eliminator to one gallon of water. Heat cleaning solution to 150°F and immerse utensils in solution. Rinse with clear water.

Please review label and SDS for all product directions, precautions and first aid information.

## technical data

**Appearance:** Clear light green liquid

**pH (concentrated):** <1.0

**Density:** 10 lbs/gal
