

Avance™
Warewashing Solutions

Liquiware Machine Detergent

- A concentrated warewashing detergent effective at all temperatures
- Removes coffee, tea, and food stains
- Emulsifies food soils including high protein and heavy concentrations of carbohydrates
- Non-foaming for fast rinsability

Avance Liquiware Machine Detergent emulsifies grease and food soils with a proprietary blend of alkaline builders and surfactants. Special polymers and conditioning agents prevent mineral and scale deposits on the dishware and in the machine. Effective in both low or high temperature machines.

Features :

- Heavy-duty alkaline formula
- Contains water conditioners
- Enhances rinse additive performance
- Contains dispersant to control food soils adherence
- Controls water mineral build-up on machine
- Enhanced with agents to remove stains

Liquiware Machine Detergent

directions

Avance™ Liquiware Machine Detergent is designed to be dispensed with equipment installed and/or approved by your State Cleaning Solutions representative. Good product performance is dependent on many operational factors such as soil load, water temperature, type of soil, wash procedures, injection and mechanical action in the machine. Your service representative will evaluate your soil load and warewashing machine to determine the correct product dosage for your system that will optimize product performance.

Typically, Avance Liquiware Machine Detergent is automatically metered into the dish machine at a rate of 2.0 - 8 milliliters per rack.

Please review label and MSDS for all product directions, precautions and first aid information.

technical data

Appearance: Red liquid
pH (Concentrated): > 12.5
Density: 10.37 lbs /gal
