

**Avance™**  
Warewashing Solutions

# Spotless All Temp Rinse Additive

- High concentration of solids
- Conditions the water for effective sheeting action, preventing spots and films
- Effective in both low and high temperature machines
- Use Spotless for sparkling glassware and bright cutlery

Avance Spotless All Temp Rinse effectively sheets water to speed dry time and prevent water spotting. Avance Spotless Rinse Additive is compatible with all State Cleaning Solutions detergent and sanitizing products. Avance Rinse Additive is formulated to eliminate foaming issues and speed dish machine processing time.

# Spotless All Temp Rinse Additive

## directions

Avance™ Spotless All Temp Rinse Additive is designed to be dispensed with equipment installed and/or approved by your State Cleaning Solutions representative. Good product performance is dependent on many operational factors such as soil load, soil type, water temperature, wash procedures, injection nozzles and mechanical action in the machine. Your service representative will evaluate your soil load and warewashing machine to determine the correct product dosage for your system that will optimize product performance.

Only a qualified service representative should set or adjust dispensing volumes. Typically, Avance Spotless All Temp Rinse Additive is automatically metered into the machine at a rate of 1.5 - 4 milliliters per rack.

Please review label and MSDS for all product directions, precautions and first aid information.
