## AVANCE SILVER BRIGHTENER

High-Performance, Professional Grade

### PRODUCT OVERVIEW :

Avance™ Silver Brightener is a high-performance, professional-grade solution that removes tarnish and tough food soils without abrasives or manual scrubbing. Designed for silver, silver-plated, and stainless steel flatware, it restores original shine—even on ornate or etched surfaces—while helping reduce water spotting during drying. Powerful emulsifiers and wetting agents penetrate and loosen dried-on residues like egg yolk, cheese, and other protein-based soils, making machine washing more effective and reducing labor. Avance Silver Brightener is ideal for foodservice operations that demand fast, reliable results with minimal wear on valuable flatware.

### DIRECTIONS FOR USE :

For stainless, add one ounce per gallon of warm water. Soak for at least 15 minutes. For silver, line vessel with aluminum foil. Electrolytic action will quickly remove tarnish and restore original appearance.

Please review label and SDS for all product directions, precautions and first aid information.

### TECHNICAL DATA :

**APPEARANCE:** purple liquid  
**pH (CONCENTRATED):** 13.0  
**DENSITY:** 8.7lbs/gal

#### PACKAGING

119729	5 GL Pail
119728	1 GL Bottle/CS4
125250	3L Bottle/CS4
