CARE FOR WORK ENVIRONMENTS<sup>®</sup>

# De-greez

## OVEN AND STOVE CLEANER

### QUICK CLEANING ACTION

De-Greez cuts through tough, baked-on food and grease with ease. Just spray on and allow to work 5-10 minutes on warm ovens (150°F-200°F), and 10-20 minutes on cold ovens. Use a scrubbing pad to remove tough deposits.

### CLEANS AND BRIGHTENS

The scouring power of De-Greez effectively cleans warm or cold ovens. De-Greez also works great on stoves, broilers, barbecue grills, hoods, rotisseries, burners, drip pans and skillets. It can be used safely and effectively on porcelain, ceramic, glass, stainless steel and steel surfaces.

### SUPERIOR CLINGING ACTION

De-Greez's thick formula clings to surfaces to dissolve debris and make clean up easy. The special formula stays wet longer for better lubrication during scrubbing and removal.

De-Greez, with its pleasant lemon fragrance, works hard without the harsh odor found in other oven and stove cleaners.

### AEROSOL OR PUMP CONVENIENCE

De-Greez is available in a convenient aerosol or quart bottle. Both offer the same great cleaning ability and give superior performance. They contain no fluorocarbons and meet California and Federal VOC content requirements.

### DIRECTIONS FOR USE:

1. Shake can well and frequently (aerosol).
2. Protect floor with newspapers. Do not allow De-Greez to come in contact with any painted surfaces.
3. Always wear rubber gloves and safety glasses.
4. For warm ovens, preheat oven to 200°F. Turn oven off when applying De-Greez and while cleaning.
5. Be sure sprayer is pointed away from face, skin and eyes.
6. Spray a liberal, even coating on surface to be cleaned.
7. On a warm oven, allow De-Greez to work for 5 to 10 minutes. Use a scouring pad to remove tough deposits. On a cold oven, allow 10 to 20 min.
8. Wipe off the surface with a damp cloth or sponge. Repeat application on heavily encrusted spots, if necessary.
9. Before using the oven, rinse all surfaces with potable water.
10. Remove oven racks and clean with De-Greez. Use a scouring pad to remove baked-on food deposits. Rinse with clean water and replace in oven.
11. After cleaning, PREHEAT oven for 10 minutes before use.

**NOTE:** Recommended for use only on porcelain, enamel, stainless steel, iron, chrome fixtures, ceramic and glass surfaces. Do not apply on exterior oven areas or surfaces of aluminum and chrome trim, baked enamel, coppertone, painted areas, linoleum or plastic. Keep spray out of gas pilot light and off of electric connections, light switches, bulbs and receptacles. Do not spray when oven is turned on.

Please review label and SDS for all product directions, precautions and first aid information.

### TECHNICAL DATA

#### QUART

**APPEARANCE:** Opaque, off-white

**WEIGHT PER GALLON:** 9.08 lbs/gal

**pH:** > 13.0

**FLASHPOINT:** Greater than 212°F

**ODOR:** Lemon fragrance

**VOC CONTENT:** 1%

**SHELF LIFE:** Minimum 1 year

**AUTHORIZATIONS:** Meets the requirement for use in Federally inspected meat and poultry plants.

#### AEROSOL

**APPEARANCE:** White foam

**ODOR:** Lemon fragrance

**WEIGHT PER GALLON:** 9.4 lbs/gal

**pH:** > 13.0

**FLAMMABILITY:** Not considered a flammable aerosol

**VOC CONTENT:** 9.1%

**AUTHORIZATIONS:** Meets the requirement for use in Federally inspected meat and poultry plants.
