The Ideal *Patient Experience*

The ideal patient experience requires dialysis centers to employ caring personnel that strive to make a memorable impression on the patients. The patient experience can be heavily affected by poor service, insufficient equipment and drain care issues. These issues present an uninviting atmosphere for patients causing them to seek treatment at other dialysis centers. As industry leaders in drain care, let State take care of your facility and help you enhance your patient experience.

BD-150X contains 1.35 billion CFU/Milliliters of bacteria that eliminates odor causing matter.

Our Dialysis Drain Solution

BD-150X™

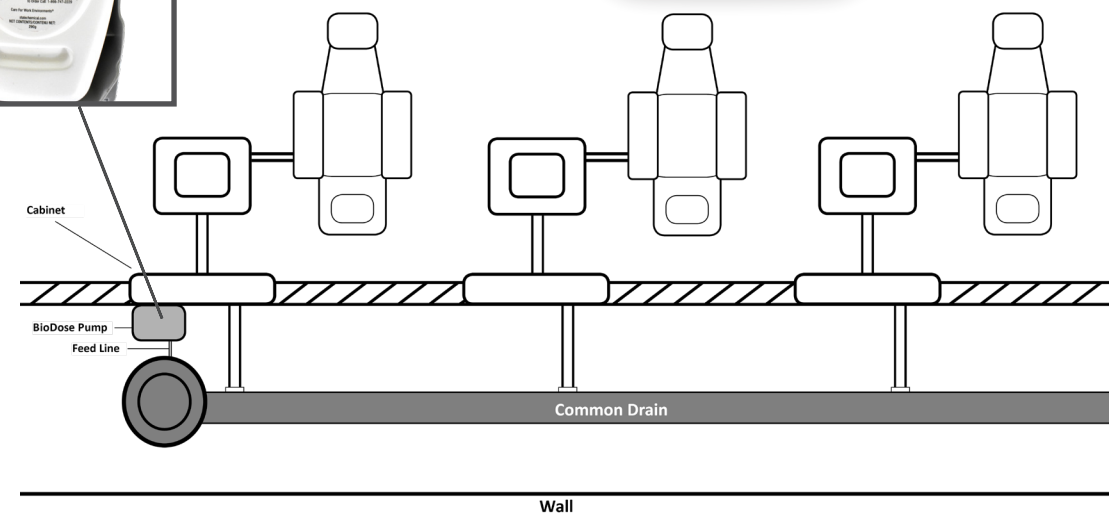

Dialysis Drain Maintainer

- 150x the strength of common bacteria drain maintainers
- Odor suppressant for quick reduction of obnoxious odors
- Added enzymes for rapid breakdown of organic matter

Bio Dose™

Automated Pump

- Compact design; all equipment hidden behind the scenes [9" H x 4.65" W x 3.15" D]
- Virtually silent operation dosing every 15 minutes
- Monthly maintenance included
