

# DRAIN CARE *Solutions*

## DRAIN CHASER™

**BACTERIA BEVERAGE TRAY DISK**

- Bacterial disc – safe to use in all beverage trays
- Easy to use – just place a disc in tray
- Dissolving disc maintains drain – keeps line clean
- Eliminates slime associated with drain flies

# DRAIN CHASER™

## BACTERIA BEVERAGE TRAY DISK

### Liquid Activated Discs – 24/7 Treatment

After placing the bacteria disc in tray, the melting ice and other liquids slowly dissolve the disc. This allows constant feed of the bacteria to keep drain lines clean. Each disc will last two to three weeks depending on activity.

### Eliminates Organic Slime

Drain flies lay eggs in the organic slime that can develop in soda fountain drain lines. The bacteria contained in Drain Chaser will eliminate the slime, leaving drain flies searching for new breeding grounds.

### Employee Friendly

By utilizing all non-pathogenic bacteria, placing discs is safe for the end-user. Simply place the disc in the tray, and let it begin to work.

### Technical Information:

#### PHYSICAL PROPERTIES

Appearance: Blue Disc

Storage Conditions: Store at room temperature.

Keep container closed when not in use.

Odor: Ocean Breeze

Shelf Life: 12-18 months

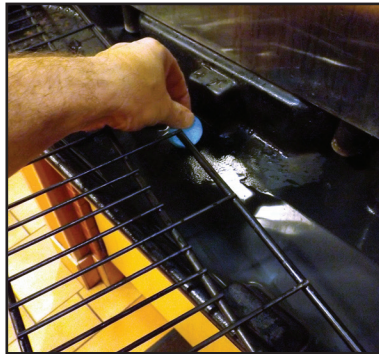

#### BIOLOGICAL PROPERTIES

Proprietary blend of bacteria strains, specifically designed to accelerate the breakdown of fats, oils, greases and other organic wastes.

## Easy to use:

Remove beverage tray top

Place disc in bottom of tray

Replace beverage tray top. Ready to go!
