CARE FOR WORK ENVIRONMENTS®

GRANULAR AIR FRESHENER AND ODOR ELIMINATOR

POWERFUL ODOR CONTROL

Dump Star's super-absorbent granules are designed especially to eliminate the foul odors and absorb liquids found in dumpsters, compactors, trashcans and dumpsites. The granules are so powerful that they completely neutralize gaseous odors and provide long-lasting performance.

EASY-TO-USE

Simply sprinkle Dump Star's pleasantly-scented granules into any dumpster or waste container. Repeat application after every service.

WHERE TO USE

Dump Star is ideal for use in dumpsters, offices and hotels, trash compactors, sewage treatment plants, landfill sites, garbage trucks, municipal dumps, hospital waste, manure piles, loading docks, all types of food waste including meats, fish and poultry.

NON-CORROSIVE & ACID-FREE

Dump Star's formula is biodegradable, non-corrosive and acid-free. Dump Star is V.O.C. compliant for Ozone Transport Commission States and California.

AIR QUALITY ENHANCEMENT SERVICE

State Chemical has delivered odor control solutions for several decades. Based on our experience, we realize that true odor control requires a custom approach unique to each customer's needs. We offer several air quality enhancement strategies to meet the specific needs of your facility. Your State Chemical sales representative will review your facility with you and recommend a combination of odor control solutions that best address your complete needs.

DIRECTIONS FOR USE:

Sprinkle granules directly into dumpsters or waste containers. For maximum results, repeat application after every service of receptacle.

NOTE: Do not use or store in areas where food is exposed. Use only in well-ventilated areas or outdoors.

Please review label and SDS for all product directions, precautions and first aid information.
