CARE FOR WORK ENVIRONMENTS®

COST-EFFECTIVE SOLUTION

Clear Out is a cost-effective solution that is specially designed to unclog problematic drains. With over 200 treatments per case, Clear Out works effectively and efficiently, saving you time and money.

INNOVATIVE AND VERSATILE

Clear Out's granules have a delayed chemical reaction, allowing them to reach the source of the clog before activating. Once activated, they reach a peak temperature of 212° F (100° C), emulsifying the grease and sludge that plague drains. With its fresh lemon scent, Clear Out also eliminates the malodors often associated with clogged drains.

DIRECTIONS:

Use only as directed. Wear protective eyewear and rubber gloves. Keep face away from drain. Avoid contact with acrylic and fiberglass surfaces.

For food plant and other industrial use, avoid contamination of food in the application and storage of the product. Do not use on food contact surface.

TO OPEN CLOGGED OR SLOW-MOVING DRAINS: Remove drain sieve and standing water if possible. Make sure water in drain is COLD. Pour one (1) level capful (20 g) of Clear Out into drain. Recap. Wait 30 minutes, check if drain is open by adding several cups of COLD water. If drain clears, flush with COLD water for at least one minute. If drain does not clear completely, repeat process one time only. If clog still remains, DO NOT REPEAT OR USE ANY OTHER PRODUCT, as a violent splash back may occur. CONSULT A PLUMBER.

TECHNICAL DATA:

- APPEARANCE:** yellow granular
- FRAGRANCE:** lemon
- DRAIN OPENER TYPE:** caustic
- STORAGE:** store properly according to instructions

PACKAGING

31000 20 Oz Bottle/CS12
