FLOOR WIZARD™ SEALER

ACRYLIC COPOLYMER SEALER AND UNDERCOATER

SUPER PROTECTANT

Floor Wizard Sealer is designed to fill small openings in porous surfaces or in worn flooring, protecting them from further damage. Floors, such as terrazzo, tend to wear in high-traffic areas if not properly sealed. This unique formula provides protection from water, oil and grease.

NON-YELLOWING

Floor Wizard Sealer meets all the requirements for modern, colored floors and surfaces. Light colored floors stay light. Yellowing from buildup or aging is eliminated as this acrylic copolymer emulsion dries clear.

WATER-SOLUBLE

As a liquid, Floor Wizard Sealer is soluble in water. This makes it easier for the operator to rinse applicators and mops after use.

DEPENDABLE

Floor Wizard Sealer is a product you can depend on for lasting beauty. It contains no soluble resins or polyethylene and can be removed using one of State's stripper formulations.

DIRECTIONS FOR USE

For indoor use only.

1. Strip floor using one of State's strippers according to label directions. Ensure all finish and sealer is removed from the floor.
2. Apply one coat of Sealer using a clean applicator (one coat of Sealer is normally sufficient).
3. Allow to dry for 45-60 minutes before applying floor finish.

COVERAGE: 1500-2500 sq. ft. per gallon depending on the porosity of the surface. Do not apply if floor temperature is below 50°F (10°C).

Please review the label and SDS on stateindustrial.com for all product directions, precautions and first aid information.

TECHNICAL DATA

APPEARANCE: white, translucent emulsion

SOLVENTS PRESENT: none

FLAMMABILITY: nonflammable

REMOVABILITY: use a State stripper product to remove sealer

pH: 8.0 - 9.0

SOLIDS CONTENT: minimum 19%
