CARE FOR WORK ENVIRONMENTS[®]

FORMULA 222 HEAVY-DUTY DEGREASER

TOUGH, VERSATILE CLEANER

F-222 is specially formulated to attack dirt and grease on contact, emulsifying and converting it to a rinsable consistency that is easily washed away. F-222 is effective at eliminating animal and vegetable fats, which commonly accumulate in food preparation areas, contributing to unsanitary conditions and slip hazards.

Use F-222 to degrease floors, machines, tools and equipment. It can also be used in hot dip tanks or sprayed on soiled surfaces.

COST EFFECTIVE CONCENTRATE

F-222 is super-concentrated and can be diluted to meet your specific needs. For best results, use with State's One Solution™ Dispensing System to assure accurate dispensing, worker safety, impeccable product performance and cost control. F-222 can also be diluted with hot water in a high pressure unit or in steam cleaners.

AUTHORIZATION

F-222 is NSF (A1), and Kosher Certified, so it meets the requirements to be used in a wide range of food preparation areas including federally-inspected meat and poultry plants.

DIRECTIONS FOR USE:

F-222 dilutes for economical and safe cleaning in a wide range of applications. Please review label for all product directions, precautions and first aid information.

LIGHT-DUTY CLEANING: Dilute 2 ounces (1:64) of F-222 Heavy-Duty Degreaser per one gallon of water.

MEDIUM-DUTY CLEANING: Dilute 3 ounces (1:42) of F-222 Heavy-Duty Degreaser per one gallon of water. Allow to soak to dissolve grease and grime. Rinse with clean water.

HEAVY-DUTY CLEANING: Dilute 4 ounces (1:32) of F-222 Heavy-Duty Degreaser per one gallon of water. Spray or soak surface to be cleaned. Scrub or agitate if necessary. Rinse thoroughly with clean water.

EXTRA HEAVY-DUTY CLEANING: Dilute 16 ounces (1:8) of F-222 Heavy-Duty Degreaser per one gallon of water. Spray or soak surface to be cleaned, scrub or agitate if necessary. Rinse thoroughly with clean water.

STEAM CLEANING: Dilute 3 ounces (1:42) of F-222 Heavy Duty Degreaser per one gallon of water. More or less concentrate can be used depending upon grease and soil conditions.

FOOD PLANT USAGE: First, remove or carefully protect food products and packaging materials. After cleaning with F-222, equipment and utensils must be rinsed with potable water.

NOTE: Will not harm metal surfaces. Because this is a heavy-duty degreaser, care should be utilized on painted surfaces for pressure washer applications. The light-duty dilution ratio should be used. Use caution on aluminum (pretest dilution on aluminum before use).

TECHNICAL DATA:

APPEARANCE: clear red liquid

ODOR: none

WEIGHT: 9.31 lbs/gal

PH OF 1 TO 20 SOLUTION: 12-12.7

PHOSPHATE CONTENT: none

PACKAGING
