CARE FOR WORK ENVIRONMENTS®

STATE® FRAGRANCE BURST™

SE-500® ODOR-ELIMINATING TECHNOLOGY

Fragrance Burst™ is a metered spray system designed to handle even the most difficult odor control problems. Unlike other spray systems that simply mask foul odors, the Fragrance Burst system includes SE-500® to bind with odor molecules to completely neutralize them. Foul odors are removed and replaced with a pleasant fragrance.

WELCOME EVERYWHERE

The Fragrance Burst, an automated dispensing system, offers versatile control in an attractive package that fits any décor. The Fragrance Burst system is designed to be non intrusive, providing invisible air quality enhancement. It produces a dry- fog spray that does not leave a residue and can be used in many different areas and building environments: restrooms, offices and conference rooms, lobby entryways and disposal areas.

DIRECTIONS FOR USE

Place aerosol refill into the Fragrance Burst cabinet following the dispenser instructions. For best results, set the Fragrance Burst unit to spray every 15 minutes. One refill can controls odors and provides a pleasant atmosphere for up to 4,000 cubic feet of space. Each can contains approximately 3,000 metered releases.

Please review label and SDS for all product directions, precautions and first aid information.

For optimum performance, replace the Fragrance Burst batteries every six months.

DURING NORMAL OPERATION

Green LED blinks approximately every 5 seconds.

Red LED blinks indicate it is time to replace the aerosol can.

No blinking light indicates the need to replace batteries.
