

LEADERS IN DRAIN CARE

Care for Work Environments[®]

State 24/7™ Automated Drain Care System

Proper and efficient plumbing and drain systems are essential in all types of businesses including health care, schools, office buildings, municipal facilities and restaurants. Slow or clogged drains due to fat, oil and grease build up can cost businesses in more ways than one including loss of revenue, unsanitary and unsightly conditions, unpleasant odors and more.

State Industrial Products has been providing quality commercial and industrial drain care solutions for 100 years. State's drain care program includes:

1. Trained sales professionals who will thoroughly survey and evaluate your entire drain care system.
2. A consultative partnership with your operations, maintenance and engineering teams.
3. Customized recommendations for solving, maintaining and servicing your drains utilizing a combination of proprietary chemical, biological and mechanical solutions.

REDUCED FOGs

LESS Odors

NO Drain Flies

NO Back-Ups

Results After ONLY 60 Days of Treatment

Day 1

Day 30

Day 60

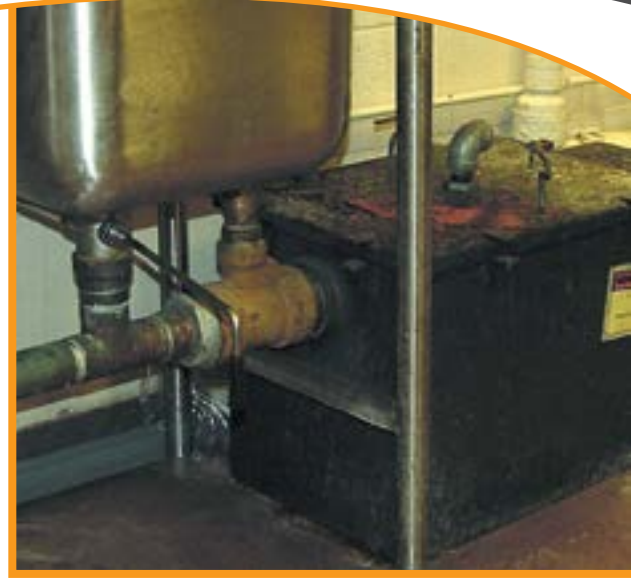

Problems are No Match

Grease Traps / Grease Interceptors

Grease traps are designed to intercept most fats, oils and greases from cooking prior to discharge to the sanitary sewage system. Common problems associated with grease traps and grease interceptors are:

- Back-ups
- Drain flies
- Strong, foul odors
- High cost pump-outs

Solutions: State Industrial Products has products and programs designed for this application including Grease-B-Gone®, Ecolution® Drain Line Maintainer, Line Bac' R™, and Prime Zyme.

Lift Stations

Lift stations, or ejector pits, are designed to move waste water from buildings to a city's sanitary sewer system. Fats, oils, and greases build up in these applications. Common problems associated with lift stations are:

- Strong, foul odors
- Back-ups
- Expensive pump replacement
- Unwanted pests

Solutions: State Industrial Products has products designed for this application including Ecolution® Drain Line Maintainer, Line Bac' R™, and Prime Zyme for FOGs. For just odors, State Industrial Products offers Orange Buoy, Orange Buoy Select, and Blanket 510.

Specialty Applications

Specialty applications include hard-to-treat or often missed applications like X-Ray, dialysis, ice machine, bar tap and soda fountain drains. Common problems associated with these applications are:

- Back-ups
- Strong, foul odors

Solutions: State Industrial Products has products designed for this application including Grease-B-Gone® and Prime Zyme.

State 24/7™ Automated Drain Care System provides peace of mind . . .

State Industrial Products provides the products and service you need to eliminate and prevent drain problems.
