

# PowerWash Laundry Emulsifier

- Ultra concentrated formulation reduces inventory
- Effective at all temperatures to minimize energy costs
- Effectively emulsifies all soils even in hard water conditions
- Safe for all types of natural and synthetic fabrics

Pyxis™ PowerWash Laundry Emulsifier is our most concentrated liquid laundry detergent containing alkaline builders and water conditioners. Effective even in cold water. Designed for heavy soil conditions. PowerWash Laundry Emulsifier contains anti-redeposition agents, alkaline builders to power out grease and oil stains, and sequestering agents to maintain optimal performance even in hard water.

#### Features:

- Heavy duty alkaline formula
- Contains water conditioners
- Hot or cold water performance
- Contains anti-redeposition agents to carry soils down the drain
- Controls mineral deposits in water
- Compatible with a multiple component system

# PowerWash Emulsion Detergent

## directions

PowerWash Emulsion Detergent should be used through automatic dispensing equipment. This product is designed to be part of a multi-component chemical formula. Consult your State Cleaning representative for specific use instructions. Typical commercial application rate is 6 ounces per hundred weight of fabric.

Please review label and MSDS for all product directions, precautions and first aid information.
