Reopening Canada

Throughout much of North America many communities are adopting three-phase approach designed to help local officials safely reopen their economies in the fallout of the COVID-19 pandemic.

Criteria

- Before proceeding into each phase, there should be a downward trajectory of COVID-19 cases and symptoms within each community for 14 days.
- All patients should receive treatment without the need for crisis care.
- Robust testing must be available to at-risk health care workers.

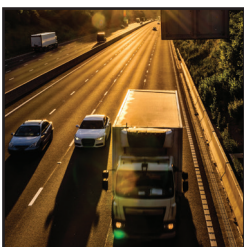

Phase 1

- Social settings of more than 10 people should be avoided unless precautionary measures are in place.
- Minimize non-essential travel.
- Encourage telework, returning in phases if necessary.
- Vulnerable individuals should shelter in place.

Phase 2

- Social settings of more than 50 people should be avoided unless precautionary measures are in place.
- Non-essential travel can resume.
- Encourage telework when feasible with business operations.
- Vulnerable individuals should continue to shelter in place.

Phase 3

- Vulnerable individuals can resume public interactions with physical distancing.
- Low-risk populations should consider minimizing time in crowded environments.
- Resume unrestricted staffing in workplaces.

Refer to [Health Canada](https://www.healthcanada.gc.ca/covid19/) for the complete guidelines and information regarding Coronavirus.

Recommended Solutions

Preparing your building to reopen after a sustained closure due to viral outbreaks, such as the COVID-19 pandemic, requires cleaning and disinfection of all high-trafficked areas. The most economical solution is to use dilutable products through State's One Solution System where possible. When needed, these recommended ready-to-use solutions are just as effective.

Housekeeping

- Quick Defense™ NDC™
- Ecolution® All Purpose Cleaner
- One Solution™

Maintenance

- Ecolution® Pro Cleaner Degreaser
- Invisilube® II
- PrimeZyme™

Engineering

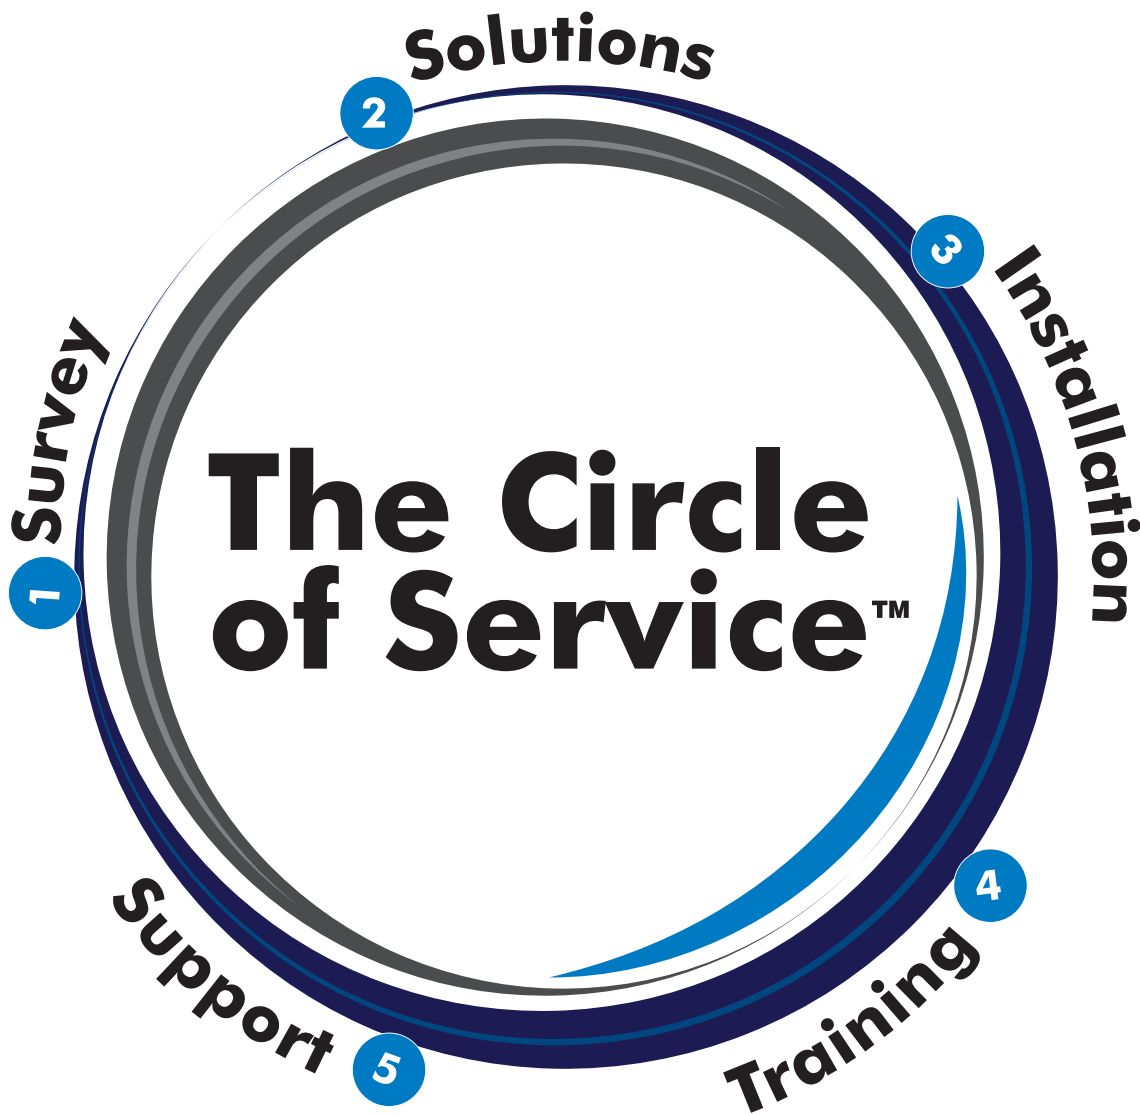

- Coil Doctor™
- Coil Commando™
- Sta-Clean® Bio Pan Tabs

Have a State Account Manager conduct a survey of your building and put together a comprehensive plan to reopen efficiently. For full product listing, please visit www.stateindustrial.com

Circle of Service

Nobody has had it easy throughout the COVID-19 pandemic, and State understands that. We wish you and your business a safe and smooth reopening process, and hope that we can be a resource to you in this time of uncertainty. Our high-performance solutions are ready to serve you, whether it is through our disinfectants that are effective against the coronavirus, drain care products to help your pipes get moving again or any of our many products designed to fulfill your needs.
