Care For Work Environments®

HANDY SEAL™ BLACK

PRODUCT OVERVIEW :

FAST DRYING, LONG LASTING SEALER
Handy Seal™ is a quick drying, easy to apply formula that forms a strong, watertight seal. It protects surfaces, locks out air and moisture, and can be painted after drying. Built for lasting performance, it helps prevent leaks and deterioration on a wide range of materials while creating a durable barrier against the elements.

EFFECTIVE FOR REPAIRS AND MAINTENANCE
Ideal for sealing metal, aluminum, galvanized metals, PVC, concrete, masonry, asphalt, wood, vinyl siding, and fiberglass in both indoor and outdoor settings. Handy Seal™ is excellent for repairing roof and gutter leaks, A/C drip pans, ductwork, windowsills, and asphalt shingles, making it a dependable solution for facility maintenance needs.

DIRECTIONS FOR USE :

Clean surface thoroughly. Shake container for 30 seconds before using. Hold 8 to 12" from surface and apply an even film. Allow 5-10 minutes to dry before adding further coats. Wait 30 minutes before adding final topcoat. For best results use when can is 74°F. Dry times can be affected by temperature and humidity. After use, invert can and spray until only gas is dispensed to prevent clogging.

TECHNICAL DATA :

APPEARANCE: Dries black
ODOR: Solvent
SPECIFIC GRAVITY: 1.26
FLAMMABILITY: Extremely flammable aerosol
COLD STABILITY: 32°F
SHELF STABILITY: Minimum 1 year

Please review label and SDS for all product directions, precautions, and first aid information.
