

# INDUSTRIAL CLEANERS

## *Solutions*

- Citrus-oil based
- Powerful, concentrated formula for heavy-duty cleaning
- Use as a spray or in a cold tank operation
- Gel formula clings to vertical surfaces

CARE FOR WORK ENVIRONMENTS®

**ECONOMICAL, NATURAL SOLUTION**

The unique combination of natural citrus oil surfactants become nature's own cleaning system to remove grease, tar, asphalt or rubber. Oran-Gel Bulk has the power of a solvent engine degreaser that can be diluted with water for economy - without losing its power.

**SAFE, MULTI-PURPOSE**

Orange-Gel clings and remains moist for hours, keeping it in place to breakdown grease and grime. It easily clings to vertical surfaces:

- Spray on or presoak before steam cleaning
- Effective in a cold tank operation

Environmentally desirable because it contains biodegradable citrus oil. Can be used on all common metals. Great citrus smell allows it to be used almost anywhere.

**DIRECTIONS FOR USE:**

For the best clinging gel:

1. Add cool (not hot or warm) water to Oran-Gel Bulk. Do not add Oran-Gel Bulk to water.
2. Add half the required water and shake or stir well with the Oran-Gel. Add the other half of the water and shake or stir again.
3. Spray from a compression sprayer (such as State's two or three gallon sprayer) or, for small areas, from a trigger sprayer.

**FOR HEAVY DUTY ENGINE CLEANING:** Mix 20 parts cool water to one part Oran-Gel Bulk. Spray surface and allow approximately 15 minutes for the gel to work. Rinse with water (high pressure flush will help remove residue). For extreme soil, scrub surface with a stiff bristle brush and then rinse. When temperature is below 40°F, allow one to three hours of gel contact time.

**FOR LIGHTLY SOILED AREAS:** When Oran-Gel Bulk's clinging action is not essential, mix one part to 20 parts cool water. Immerse parts to be cleaned in the solution until grease is loosened. Rinse thoroughly.

**AS A SOAK DEGREASER:** Mix one part to 20 parts cool water. Immerse engine parts to be cleaned in the solution until grease is loosened. Rinse thoroughly.

**TECHNICAL DATA:**

**APPEARANCE:** clear yellow liquid

**ODOR:** fresh citrus

**FLASHPOINT:** 120°F (TCC)

**EMULSION STABILITY:** 12 hr. max

**EFFECT ON PAINT:** may affect some painted surfaces

**EFFECT ON PLASTIC:** may affect some plastics (particularly polystyrene)

**SHELF LIFE:** two year

**NOTE:** Oran-Gel Bulk is a powerful organic compound and may harm some plastic or painted surfaces. Test in a small hidden area before use. **DO NOT SPRAY NEAR SOURCES OF IGNITION.**
