## zero-in™ BROAD SPECTRUM INSECTICIDE

Zero In™ Broad Spectrum Insecticide provides powerful, multi-purpose control of a wide range of crawling and flying insects across multiple environments. Designed for flexibility, it can be used in and around facilities where insect nuisance is a concern, delivering fast and reliable residual performance. Its broad-spectrum formulation targets common nuisance and disease-carrying pests, making it an ideal solution for comprehensive insect management.

- Broad-spectrum control of crawling and flying insects
- Fast knockdown with residual performance following application
- Suitable for use in and around facilities
- Flexible application across a variety of surfaces

## zero-in™ BUG BURST

Zero-In™ Bug Burst features a powerful blend of natural pyrethrin, piperonyl butoxide, and MGK® 264 for fast, effective control of flies, mosquitoes, and gnats. Designed for convenience, it works seamlessly with State's Fragrance Burst™ dispenser to deliver consistent, around-the-clock protection while helping prevent reinfestation. It is NSF F-1 rated for use in all areas of federally inspected meat and poultry plants.

- Effective control of flies, mosquitoes, and gnats
- Up to 3,000 metered sprays for approximately 30 days of coverage
- Covers areas up to 6,000 cubic feet
- Automatic dispensing helps reduce waste and misuse

## zero-in™ PERSONAL INSECT REPELLENT

Zero In™ Personal Insect Repellent offers reliable protection from a wide range of biting insects, helping minimize exposure in outdoor settings. Formulated with 14.25% DEET, it delivers long-lasting repellency against mosquitoes, ticks, flies, gnats, and fleas. The easy-to-apply aerosol ensures even coverage on exposed skin and clothing, while the non-sticky formula keeps you comfortable during extended use.

- Long-lasting protection against mosquitoes, ticks, flies, gnats, and fleas
- Easy-to-apply aerosol for even coverage on skin and clothing
- Non-sticky formula for all-day comfort
- Ideal for use in outdoor settings

## zero-in™ POWDERED INSECTICIDE

Zero In™ Powdered Insecticide delivers fast-acting and long-lasting control of a wide variety of crawling insects. Formulated with pyrethrin for quick knockdown and silicon dioxide for extended residual performance, it provides effective control upon contact and continues to eliminate insects for up to 6 months. Its powder formulation helps flush insects from hiding places, for more complete control in treated areas.

- Fast knockdown with pyrethrin
- Long-lasting control for up to 6 months
- Powder formulation helps reach hidden insects
- Effective against a wide variety of crawling insects

## zero-in™ ROACH & ANT KILLER

Zero In™ Roach & Ant Killer is a powerful insecticide that provides fast contact kill and residual control for up to seven weeks to help prevent reinfestation. Formulated for use as a surface spray, not a space spray, it should be applied to cracks, crevices, baseboards, and other areas where insects hide.

- Fast contact kill for immediate results
- Residual control for up to seven weeks
- Ideal for cracks, crevices, baseboards, and other hiding spots
- Formulated for surface use only, not a space spray

# PRODUCT SELECTION

Zero In™ SOK® is a powerful aerosol flying and crawling insect killer formulated with synthetic pyrethroid insecticides to provide fast, on-contact kill. Suitable for indoor or outdoor use, it delivers broad-spectrum control, and can be applied directly to plants and ornamentals.

- Fast, on-contact kill of flying and crawling insects
- Non-staining
- Safe for application on plants and ornamentals
- Suitable for use both indoors and outdoors

125360-12 16 oz Aerosol/CS12

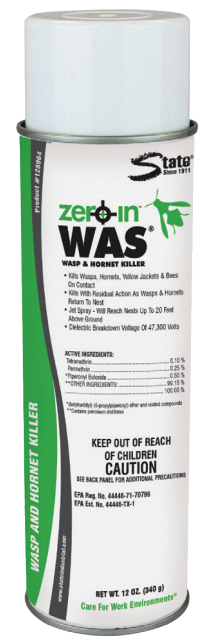

125360-24 16 oz Aerosol/CS24

Zero In™ WAS® Wasp & Hornet Killer contains powerful active ingredients that kill dangerous insects on contact, including wasps, hornets, bees, and yellow jackets. Its 20-foot long-range blast spray ensures a safe application distance from nests and hives. Residual killing power destroys insects upon return to prevent new colonies from forming. It can be used on indoor and outdoor nesting sites and has a dielectric strength of 47,300 volts, making it safe for use near electric fields.

- Kills wasps, hornets, bees, and yellow jackets on contact
- 20-foot long-range blast spray for safe application from nests
- Residual killing power helps prevent new colonies
- Safe for use near electric fields with 47,300-volt dielectric strength

# PRODUCT SELECTION

Zero In™ WHAM provides a hands-off method for killing crawling and flying insects, including both adults and larvae, on contact. Simply activate the can in an empty room and leave. A blanket of dry fog consisting of microscopic particles attacks insects where they hide, without leaving a sticky or oily coating or damaging most surfaces. One highly concentrated can treats up to 4,000 cubic feet. Not available in California.

- Kills crawling and flying insects, including adults and larvae
- Hands-off application with dry fog for hard-to-reach areas
- Won't leave sticky or oily residue or damage most surfaces
- One can treats up to 4,000 cubic feet

103221 6 oz Aerosol/CS12

105478 6 oz Aerosol/CS24
