Care For Work Environments®

PRODUCT SELECTION

Aqua Jolt®

Sludge Reduction Booster

Aqua Jolt® Sludge Reduction Booster is a concentrated nutrient package designed to enhance the performance of Aqua Jolt® biological treatments. When used in conjunction with any Aqua Jolt® biological product, it provides essential nutrients that optimize bacterial activity, accelerating the biological breakdown of organic sludge and sediment in ponds and other aquatic environments for faster, more effective results.

- Promotes cleaner, healthier aquatic environments
- Supports long-term pond maintenance and performance
- Helps minimize the need for costly dredging and cleanup

Aqua Jolt® Sludge Reduction Booster

129332	1 GL Bottle
129333	1 GL Bottle/CS4

Aqua Jolt®

Bio-Enzyme Packets

Aqua Jolt® Bio-Enzyme Packets accelerate the breakdown of organic debris and sediment from fallen leaves, twigs, and organic waste found in ponds. Self-dissolving packs make for easy distribution over lagoons and ponds.

- Helps reduce sludge depth
- Breaks down organic debris
- Easy to use; convenient, water-soluble packets

Aqua Jolt® Bio-Enzyme Packets

123180	25 LB Pail

PRODUCT SELECTION

Phosphorus Control Pellets

Aqua Jolt® Phosphorus Control Pellets help reduce excess phosphorus in ponds and lakes to improve water clarity, limit algae growth, and enhance the performance of Aqua Jolt® biological treatments. Easy-to-apply pellets support a healthier aquatic environment by promoting balanced water conditions.

- Helps reduce excess phosphorus and phosphates
- Improves water clarity while limiting algae growth
- Promotes beneficial microbes to reduce muck and ammonia

Aqua Jolt® Phosphorus Control

129336 20 LB pail

Aquatic Insect Control

Aqua Jolt® Aquatic Insect Control is a liquid biolarvicide that provides long-lasting control of mosquitoes and other waterborne pests. Its easy-to-apply formula disperses quickly in water, delivering effective larval control for up to 14 days without harming fish or disrupting pond ecosystems.

- Controls mosquitoes, blackflies, nuisance flies, and aquatic midges
- Safe for fish and aquatic environments when used as directed
- Ideal for ponds, lagoons, retention basins, and other standing water

Aqua Jolt® Aquatic Insect Control

129338 1 GL Bottle
129339 1 GL Bottle/CS4

PRODUCT SELECTION

Aqua Jolt® **AQUATIC WEED KILLER**

Aqua Jolt® Aquatic Weed Killer provides fast, effective control of aquatic weeds and algae with visible results in just days. Its concentrated formula is designed for use in ponds, lakes, and other aquatic environments, delivering reliable vegetation management while remaining environmentally compatible when used as directed.

- Fast-acting control with visible results in days
- Controls aquatic weeds, algae, and a broad range of other vegetation
- Ideal for ponds, lakes, drainage ditches, and other aquatic systems

Aqua Jolt® Aquatic Weed Killer

129710 Drum 55
129709 Drum 5

Aqua Jolt® **LAGOON BIOTABLETS**

Aqua Jolt® Lagoon BioTablets provide long-lasting biological treatment to help reduce bottom sludge and improve water quality in ponds, lagoons, and other aquatic environments. Their unique slow-dissolving tablet design delivers beneficial bacteria throughout the sludge layer to break down accumulated organic matter and support a healthier aquatic ecosystem.

- Helps reduce bottom sludge and improve water clarity
- Slow-dissolving BioTablets provide even distribution throughout sludge layers
- Easy to apply with no special equipment required

Aqua Jolt® Lagoon BioTablets

129754 Pail 25 LB
