Care For Work Environments®

STATE® FRAGRANCE CUBE™ 2-6

PRODUCT OVERVIEW :

INNOVATIVE TECHNOLOGY

The State® Fragrance Cube™ 2-6 is an odor-neutralizing and scenting solution for small, indoor spaces, ranging from 2,000 to 6,000 cubic feet with just one unit. This advanced dispenser utilizes cold air diffusion technology, consistently delivering a completely dry, scented vapor with no decline in fragrance over time. Featuring a battery-operated system, the State® Fragrance Cube™ 2-6 can be placed anywhere in your facility, creating endless application possibilities.

FRAGRANCES TO REFRESH SPACES

Connect with your guests, residents, and customers by making a good first impression with a scented environment. Many people attribute smell to cleanliness; adding a State® Fragrance Cube™ 2-6 is sure to enhance the experience in your small spaces, such as offices, restrooms, and hallways. State offers a variety of fragrance strengths and scents to fit any space and clientele.

ODOR-NEUTRALIZING

Powered by our SE-500® odor-neutralizing technology, the dry vapor released by the State® Fragrance Cube™ 2-6 bonds with airborne malodors and neutralizes them at the source, leaving behind a pleasant fragrance. Unlike products that simply mask odors, the State® Fragrance Cube™ 2-6 eliminates them, making it the ideal solution for small-space air care.

COMMON APPLICATIONS

The State® Fragrance Cube™ 2-6 is best applied when used to treat small-sized spaces, ranging from 2,000 to 6,000 cubic feet, such as:

- Restrooms
- Offices
- Hallways
- Hospital Rooms
- Entryways

COMPLETE PROGRAM INCLUDED

From start to finish, State has you covered. The State® Fragrance Cube™ 2-6 is available on a complete program basis, meaning local Account Managers take care of the maintenance and service on the system. With routine visits from your local Account Manager, your State® Fragrance Cube™ 2-6 will be ready to treat your areas around-the-clock.

DIRECTIONS FOR USE :

1. After installation, open the door to the State® Fragrance Cube™ 2-6 using the key provided.
2. Remove the fragrance canister and diffuser head from the unit.
3. Unscrew the diffuser head from the old fragrance canister and replace with a refill.
4. Secure the diffuser head tightly to the refill.
5. Push the fragrance refill and diffuser head back inside the State® Fragrance Cube™ 2-6.
6. Lock the dispenser.
7. Repeat monthly when fragrance canister runs out of oil.

INSTALLATION

After a thorough survey of your facility has taken place to determine the optimal placement of your system, your local State Account Manager will securely and safely install your State® Fragrance Cube™ 2-6.

DISPENSERS

Your local Account Manager will program your State® Fragrance Cube™ 2-6 to fit your facility's unique fragrancing needs, guaranteeing you get the most out of your program. The durable packaging of the State® Fragrance Cube™ 2-6 will ensure this dispenser can keep up with your facility's environment. Secured with a keylock, you'll never have to worry about misplaced refills, tampering, or broken equipment.

FRAGRANCE REFILLS

State takes the guesswork out of your fragrance refills by automatically billing and shipping product to your doorstep when the fragrance runs out. With an average run-life of 30-60 days, your Account Manager will routinely visit your facility to change and replace these refills for you.

SERVICE

With State, the support doesn't stop at installation. To ensure your facility is receiving the best experience possible with our program, we'll provide additional service as required on our systems.
