Hebron, Ohio manufacturing plant

Locations Everywhere to Serve You

Head-quartered in Cleveland, Ohio, with a manufacturing hub in Hebron, Ohio, State Industrial takes pride in being ISO 9001 Certified for quality assurance and ISO 14001 Certified for environmental responsibility. With our GSA contract and participation in the bio-preferred program, we are able to adhere to the stringent rules and regulations outlined by the government in a cost-effective manner, allowing us to work with Federal, State and Local government organizations. As a company, we strive to provide sustainable programs, reduce costs and exceed expectations with our service.

With three divisions, each with their own area of expertise, working with State Industrial Products ensures there is a solution for your every need. Whether you need specialists in cleaning and sanitation, warewash and on-site laundry service, consulting on heavy industry lubricants, help increasing efficiency in your water treatment operations, wastewater collection programs, or even if you're another chemical company looking to outsource certain operations, State Industrial has a program to meet your exact needs.

Our 100 + years of experience in the chemical industry is our greatest asset and we proudly share it with our customers on a daily basis. Let our experience help you care for your work environment!

Industry Certifications

State Industrial Products proudly maintains a variety of certifications that require strict adherence to their guidelines. These trusted partnerships ensure we offer our customers products that are proven winners to suit their individual business needs. Each certification requires an in-depth review of the products and, in some cases, the packaging while continuing to maintain criteria compliance through regular audits.

epa.gov/saferchoice

Safer Choice is a voluntary EPA program recognizing products that meet rigorous standards for ingredient safety and performance. State Industrial's participation in the Safer Choice program reflects our long-standing focus on safer chemistry, innovation, and environmental stewardship. State Industrial has also been recognized as a four-time recipient of the esteemed Safer Choice Partner of the Year award. This highlighted our achievements in the design, development, promotion and use of cleaners, detergents and other products with safer chemicals.

Green Seal is a global nonprofit that certifies products that meet a high standard for protecting people and the planet without compromising performance. Green Seal-certified products meet comprehensive health and sustainability requirements throughout the product lifecycle, from safer chemicals through packaging and disposal.

Biobased contains renewable plant, marine, and forestry-based resources not derived from petroleum. These products are derived from plants and other renewable agricultural, marine, and forestry materials. They generally provide an alternative to conventional petroleum derived products and include a diverse range of offerings such as cleaning products, hand care, parts cleaners, and grease and odor eliminators.

UL ECOLOGO® Certified products are verified for reduced environmental and health impact. ECOLOGO Certifications are voluntary certifications that indicate a product has undergone stringent testing and auditing to prove its compliance with third-party environmental standards. These standards set a wide variety of criteria in some or all of the categories of materials, energy, manufacturing and operations, health and environment, product performance and use, product stewardship and innovation.

The NSF mark provides assurance that a product was impartially reviewed to established standards or guidelines and confirms that product labeling and claims have been objectively verified by a trusted third party. You can be assured products bearing the NSF mark are certified to use in food processing areas when used according to directions.

Jewish law prohibits mixing meat and dairy products along with a few additional restrictions, while pareve foods can be mixed with either category. Cleveland Kosher helps companies maintain product kosher status by accurately assessing the ingredients, equipment, and processes involved in production, enabling them to comply with kosher laws.

Halal is an Arabic word that means "lawful or permitted." While halal refers to much more than just Islamic dietary practices, the term is most often thought of when talking about food, drinks, and other products.

The Canadian Food Inspection Agency is dedicated to safeguarding food, animals and plants, which enhances the health and well-being of Canada's people, environment and economy. Products with CFIA certification have met the standard and guidelines set forth by the Canadian government for use in food processing facilities.

AMBIENT SCENTING

Ambient Scenting Services:

Create a memorable atmosphere with our scenting solutions, like the Fragrance Cube and Central, designed for different spaces. They offer consistent fragrance diffusion for 30-60 days.

Safety and SE-500® Technology:

Our team handles installation and maintenance. Fragrances meet safety standards and SE-500® eliminates odors without masking.

Scent Marketing:

Enhance satisfaction, retention, and spending with a consistent brand-focused scent throughout your space. It's the next step in brand refinement, demonstrating your attention to detail and boosting customer satisfaction.

DRAIN MAINTENANCE

State's Drain Solutions:

With decades of experience, we provide comprehensive drain care for commercial and industrial needs, covering lift stations, grease traps, stack drain lines, and more.

Preventive Care:

Our proactive programs prevent costly issues in lift stations and grease traps, while also addressing stack drain line buildup.

Clogged Drains:

For unexpected clogs, our drain openers like Drain Rocket are essential, ensuring tenant and customer satisfaction.

Beverage Machine Drains:

Our specialized products combat sludge buildup and drain fly infestations, upholding customer satisfaction and health compliance.

TOTAL CARE SOLUTIONS

FACILITY MAINTENANCE

Facility Maintenance Partner:

Choose State for efficient, cost-effective solutions to maintain your facility, ensuring smooth operations and satisfaction.

Equipment Maintenance:

Optimize equipment with our lubricants, greases, and degreasers, including aerosol treatments and tacky grease options.

Pest Control:

Keep pests at bay with State's insecticides, addressing flying and crawling pests effectively.

Concrete and Asphalt Care:

Protect surfaces with State's sealants and asphalt patches, ensuring safety and durability.

Graffiti Removal:

Effortlessly remove graffiti with State's compliant solutions for a pristine environment.

HOUSEKEEPING

Housekeeping Excellence:

State leads in housekeeping cleaning products, ensuring a spotless environment.

Cleaning Solutions:

From bathroom to laundry and versatile cleaners, our lineup handles dirt, stains, and grime.

Laundry Optimization:

Our laundry products maintain linens' quality and freshness for guest satisfaction.

Confidence in Cleaning:

High-quality products tackle dirt and germs, saving time and maintaining cleanliness.

Ecolution® Brand:

Our sustainable cleaning solutions minimize environmental impact while being effective.

Hand Care:

Our hand care products prioritize staff well-being and promote cleanliness and professionalism.

ODOR CONTROL

Effective Industrial Odor Control:

State's tailored solutions, like Fresh Zone™ and Ecolution® Odor Remover, eliminate odors with technology. We use dilution systems or mechanical foggers for optimal distribution.

Trash Chutes and Garbage Collection:

Our solutions prevent persistent trash odors by targeting decomposing organic matter. We offer ready-to-use deodorants and automated systems featuring SE-500® technology.

Restrooms:

State addresses restroom odors with customized solutions, using automated fragrance systems and ready-to-use products based on odor sources.

Smoke Elimination:

Our SE-500® additives combat smoke odors, from cigarettes to marijuana, with portable foggers, diffusion systems, and spot applicators.

Food and Dining:

State's solutions effectively remove food odors in kitchens and dining areas, ensuring a pleasant environment before and after dining experiences.

LAUNDRY

Tailored Laundry Solutions:

State provides comprehensive laundry solutions to meet various needs, ensuring the well-being of occupants.

Setup and Service:

Our team offers onsite service, installing systems, assessing needs, and ensuring consistent results.

Green and Safe:

State partners with the EPA's Safer Choice program, offering Ecolution® products that prioritize safety and meet strict green certification standards.

Effective Stain Management:

Our spot treatment package eliminates common stains, reducing replacement costs.

Market Advantages:

State's Safer Choice Ecolution® products ensure safety for you and the environment, while our detergents adhere to NFPA guidelines for protective clothing storage.

TOTAL CARE SOLUTIONS

HAND CARE

**Efficient Hand Care:**

State offers versatile hand care solutions, including wipes and cleansers, with user-friendly dispensers.

Elevate Hygiene:

Upgrade your hygiene with Soap Factory Pro and Soap Factory Sr. dispensers for cleanliness and convenience.

Effective Hand Hygiene:

State's hand soaps and sanitizers prioritize skin protection while ensuring effectiveness.

Maintenance Team Hand Care:

Tailored for maintenance teams, our industrial hand soaps provide effective cleaning and protection.

Quick Cleaning:

Our hand wipes swiftly remove dirt and grease, leaving hands soft and clean.

KITCHEN CLEANING AND SANITIZATION

**Elevate Your Kitchen Cleaning:**

Our innovative solutions exceed cleanliness and compliance standards in food preparation areas, ensuring a secure and quality-focused environment.

Kitchen Maintenance:

Maintain restaurant hygiene with specialized formulas, equipment, and comprehensive training, preventing health code violations.

Specialized Floor Solutions:

Address floor challenges, prioritize staff safety, and elevate safety standards in commercial kitchens.

Efficient Drain Maintenance:

State's automated drain care system ensures smooth operations with reliable equipment and support through our Circle of Service™. Say goodbye to drain issues.

WASTEWATER

H₂S Gas Reduction:

Our specialized bacteria eliminate hazardous H₂S gas through targeted treatment with Pit Raider™.

Fat, Oil and Grease Remediation:

We use specialized bacteria and air infusion to prevent FOG buildup, reducing costs and complaints.

Lagoon Treatment:

Our microbial products break down solids and improve lagoon efficiency.

Odor Control:

State's technology eradicates malodors at a molecular level, addressing hydrogen sulfide and treatment waste odors with systems like State Fresh Zone™ and floating deodorizers.

VEHICLE CARE

Disinfecting and Sanitizing Your Vehicle:

Prioritize proper cleaning and use State's disinfectants to sanitize surfaces between stops and for regular end-of-shift routines.

Exterior Care:

A clean exterior shapes a positive impression. State offers powerful car washes for heavy-duty cleaning, protection, and shine.

Rubber and Interior Maintenance:

Protect and revitalize surfaces with State's advanced formulas, shielding against dust, dirt, and sunlight.

Specialty Car Maintenance:

Address neglected areas with State's specialized solutions for optimal performance and safety. Invest in comprehensive fleet care with State's products.

TOTAL CARE SOLUTIONS

THREE-SINK MANUAL WAREWASHING

Efficient Three-Sink Solutions:

Our Three-Sink Manual Warewashing System ensures safety and accuracy while being cost-effective, eliminating the need for employees to mix concentrates.

Our products, including premium detergents and no-rinse sanitizers, guarantee top-notch cleaning and sanitization for pots, pans, and utensils, reducing foodborne illness risks.

WATER TREATMENT

Our advanced water treatment solutions ensure optimal facility performance and longevity. Collaborate with our specialists to tailor solutions to your facility's needs.

Legionella Risk Management:

Protect your facility from Legionella-causing bacteria with our comprehensive program, complying with CDC and ASHRAE guidelines.

Cooling Systems:

State's cooling system program prevents corrosion, deposits, biofouling, and Legionella risks, ensuring safety and reliability.

Steam Boilers:

Our program prevents scale and corrosion in steam boilers, protecting your equipment investment.

Closed Loops:

Maximize the longevity and productivity of closed water loops with our advanced treatment program, regardless of loop size.

State Industrial Products offers a comprehensive ambient-scenting program for spaces of all sizes. From continuous scenting systems to ready-to-use applications, SE-500® technology binds with molecules to neutralize malodors at the source, eliminating the odor instead of masking it. In addition to odor neutralization, we offer a wide-variety of refined fragrances across five scent categories; Aromatic, Fresh, Fruit, Spice and Floral.

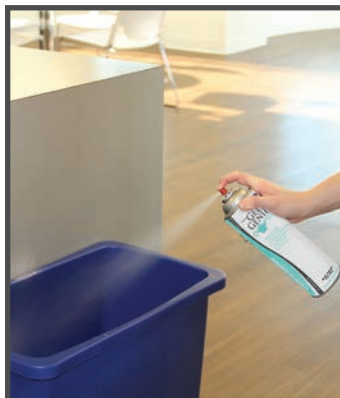

Set the stage while tackling nuisance odors with our proven complementary fragrance packages.

FRESH: Refresh and impress with Fresh Linen Fragrance Factory® Paks, Clean Cotton Fragrance Bursts™ and Kontrol® with Morning Fresh™.

BRIGHT: Wake-up and smell the clean with Citrus Green Tea from the State® Fragrance Cube™, Lemon Drop Cookie Fragrance Bursts and Air Savors™ Orange.

SUBTLE: Try Air Savors™ Eco Citrus Green Tea for a Scent-Sensitive Solution™.

All of our fragrances comply with International Fragrance Association (IFRA) standards. Additionally, select products offer fragrances, denoted by an asterisk (*), that contain no-known allergens according to the EU Cosmetic Regulation 2023/1545.

DumpStar™

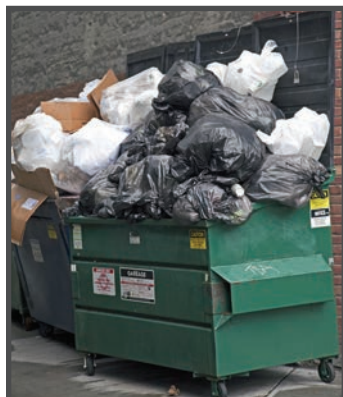

State® Gel Genie™

Odor pollution commonly found in waste collection, manufacturing or processing industries can drain resources by causing complaints, accumulating fines from regulatory agencies and creating additional work for staff.

State utilizes several odor elimination technologies with highly customizable, engineered systems to eliminate nuisance odors, complaints and fines. We have the experience and commitment to serve many industries including wastewater treatment plants and systems, landfills, transfer stations, commercial buildings, food processors, food sellers, small and large healthcare facilities, hospitality and entertainment organizations, and rendering plants.

Attack all heavy-duty outdoor odor problems with State® Fresh Zone™ Odor Control Fogging Systems. Or if you're looking to tackle indoor odors, use the State Fragrance Central™ combined with our other Trash Room Program cleaning and deodorizing products for complete results. Whether your odors are indoors or outdoors, our systems and products are supported with our commitment to excellent service. Our products are prepared to take on both large spaces, such as processing plants, landfills or sewer plants, and smaller spaces, like dumpsters, trash chutes, loading docks or lift stations with proven results.

CARPET/UPHOLSTERY CARE

PRODUCT LIST

Pile Driver®
Re-Fresh® Carpet Deodorizer
Carpet Extraction Cleaner
Ecolution® Carpet Cleaner
Foam Force™
Gum Remover
State® Probiotic Stain Remover

Care and maintenance of carpeted flooring is important to the overall appearance of a building, contributing to a positive first impression for visitors and occupants. Proper cleaning and maintenance also extends the life of the carpets, protecting your investment.

State provides a complete line of high-performance carpet care solutions that ensure optimum carpet appearance at minimal cost. From specialty spot and stain removers, to carpet deodorizers, State makes caring for your carpets easy and effective.

Difficult, unsightly carpet stains can be quickly removed with Pile Driver®. Its special formulation of cleaners and degreasers enables Pile Driver to quickly and effectively remove even the toughest stains. Its blast-action spray immediately penetrates into the carpet fibers to soften and remove embedded soils and stains. It also destroys odors with a pleasant fresh scent, and our SE-500® odor neutralizing technology quickly eliminates any odor associated with the stain.

Pile Driver® (pg. 27)

Properly diluting and applying concentrated chemical is extremely important to ensure end-user safety and product performance.

State offers a wide variety of chemical management systems designed for maximum accuracy and efficiency when dispensing and applying chemical product. These systems reduce exposure to chemical concentrates, further improving end-user safety. They also ensure proper product dilution, eliminating overuse and reducing overall costs.

For high-performance cleaning programs, consider State's One Solution™ dilution system. Dispensing anywhere from one to six products in a single system, One Solution offers convenient and accurate dilution of super concentrated chemical products, promoting end-user safety and cost-effective use.

Clean, well-maintained spaces are healthier and more inviting, leaving a positive impression on building occupants and visitors. State Industrial's specially formulated line of cleaners helps your facility achieve superior cleaning results. From the building entrance to the restrooms and everything in between, State has the right cleaner to get the job done quickly and effectively.

State has a long history as a leader in formulating super-concentrated cleaners, many with green certification. When dispensed through the One Solution™ dilution system, facility, housekeeping and maintenance managers gain tight control of product dose rates while protecting employees from exposure to concentrated products. The outcome is outstanding cleaning results, end-user safety and cost savings.

Your State Account Manager will help you choose the right product for each cleaning job. For example, use Urinal-Ade® to easily remove and prevent hard water and uric acid buildup in urinals. State continues to focus on improving formula function, resulting in Ecolution green-certified cleaners that now clean better than legacy formulas. Our ReadyClean streak-free glass cleaner will amaze your cleaning staff with its easy, streak-free cleaning strength.

Effective paints and coatings are a necessity for facility maintenance departments. Whether it's spray paint for marking safety railings, primers to reverse the effects of rust or products to remove paint and graffiti, coatings are vital for maintaining facility appearance and properly maintaining equipment.

State offers a wide selection of high-performance specialty paints and coatings, as well as paint removers, which allow for efficient and effective application in any maintenance setting. State's specialty formulas are designed for industrial use making them more effective and longer lasting than traditional hardware store solutions.

State's Defender™ II and Real Steel® provide a powerful combination in combating rust on metal surfaces. Use Defender II to stop existing rust in its tracks and create a primed surface ready for a high-performance coating. For stainless steel surfaces, use Real Steel, a grade 316-L stainless steel pigment in a convenient aerosol spray.

Ready-To-Use Disinfectants

Triple Quick™

Quick Defense™ Disinfectant

Wipes

No matter the facility type, proper cleaning and disinfection are imperative for preventing the spread of infectious diseases and protecting the health of building occupants and visitors. State has a complete line of sanitizers and disinfectants designed to meet a wide range of infection control needs. From hospital-grade, super-concentrated formulas to ready-to-use sprays and wipes, turn to State for your disinfection needs.

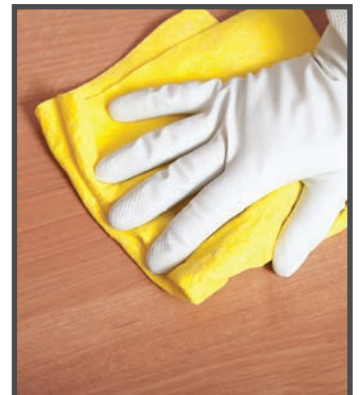

NDC is a versatile disinfectant that provides excellent performance in virtually any area. It is a hospital-grade, quaternary disinfectant with over 65 kill claims. It is ideal for hospitals and medical facilities, motels, schools, funeral homes, police and fire departments, dental offices, locker rooms, nursing homes and more. NDC is effective against the HIV Virus, MRSA and 2009 H1N1. Used with State's One Solution™ dispensing system, NDC is the perfect solution.

Proper and efficient plumbing and drain systems are essential in all types of commercial businesses including health care, schools, office buildings, municipal facilities and restaurants. Slow or clogged drains can cost businesses in many ways, including loss of revenue, unsanitary and unsightly conditions, unpleasant odors and more.

State Industrial has been providing quality commercial and industrial drain care solutions for over 100 years. State's drain care program includes:

1. Trained sales professionals who will thoroughly survey and evaluate your entire drain care system.
2. A consultative partnership with your operations, maintenance and engineering teams.
3. Customized recommendations for solving, maintaining and servicing your drains utilizing a combination of proprietary chemical, biological and mechanical solutions.

State's 24/7™ Automated Drain Care System treats your drains 24 hours a day, seven days a week, freeing up time to take care of other critical needs your facility may have. This unmatched program features reliable equipment, high-performance products and worry-free operation through our Circle of Service™.

Clean, shiny floors are the hallmark of a well-maintained facility, creating a lasting impression for visitors and occupants. To keep your floors in peak condition, State offers a wide selection of floor care products along with application equipment and staff training.

If your facility has a green initiative, consider an Ecolution® High Solids Floor Finish and Stripper combination. Your floors will sparkle with a durable, low-maintenance finish while your staff will appreciate the ease of use and low-odor refinishing process. Use Ecolution® Neutral Floor Cleaner for daily cleaning to complete your green floor care program.

For some facilities, the goal is a high shine “wet look” with a regular burnishing schedule. Mighty Sparkle™ Diamond Pro 25 is the answer for the highest shine and durability to get your floors noticed. Use State's cleaners and maintainers to keep the shine all year round.

FINISHES AND SEALERS

Ecolution® High Solids Floor Finish

Green Certified High-Solids Floor Finish

- 22% solids content provides high gloss and extended durability
- Low-odor formulation can be applied while building is occupied
- Green Seal certified (GS-40)

20 GL Drum	115796
5 GL Pail	115795
1 GL Bottle/CS4	119630

Mighty Sparkle™ Diamond Pro 18

Durable, Low-Maintenance Floor Finish

- 18% solids content provides high initial gloss
- Maintains shine and durability in low-maintenance applications
- Low-odor formulation for anytime application

55 GL Drum	126321
20 GL Drum	126243
5 GL Pail	126242
1 GL Bottle/CS4	126241

Mighty Sparkle™ Diamond Pro 22

Versatile, Low-Maintenance Floor Finish

- 22% solids content provides high initial and sustained gloss
- Maintains gloss and durability in low-maintenance applications
- Responds well to buffing and burnishing for added shine and durability

55 GL Drum	126322
20 GL Drum	126247

Organizations that provide food to residents, guests and workers must be concerned with both the quality of food being served to the public and maintaining a fully operational kitchen, or food processing line, with limited resources.

Your facility can be sure that it's meeting local and federal food safety regulations with State's top of the line detergents, sanitizers, specialty cleaners, clean-in-place (CIP) programs and maintenance chemicals that are certified by NSF International and the Environmental Protection Agency (EPA). These programs are not only safe for use in, or near, food processing areas, but utilize cutting edge technologies and equipment to be efficient and effective.

Clean utensils and dishware with ease using State's One Solution™ dilution equipment for manual dishwashing applications, Sta-Glo™ Professional Pot and Pan Detergent, and F-362™ No-Rinse Sanitizer. Maintain all kitchen surfaces and equipment with tough formulas like De-Greez™ for deep oven cleaning and FGL™, our Food Grade Lubricant.

Specialty

Formula 100 Ice Remover™

Liquid Ice Chek F-185™

Concrete Patch™

Sta-Patch®

Pond Care

Aqua Jolt® Bio-Enzyme Packets

Aqua Jolt® Lagoon Biotablets

At State, we have a solution for each of your specialty grounds care needs. We have products to patch holes, keep your sidewalks free of ice and so much more. We can help maintain the entire exterior of your facility to keep it looking pristine, keep it safe and extend the life of expensive landscape, hardscape and equipment.

We know how important it is to have quality grounds care products that produce the results you need. Our patching products are second to none and our weed killers work quickly and thoroughly. Want to talk slippery sidewalks? Our ice removing product is the most effective available, melting ice down to -20°F (-28°C). At State, we know how important it is for you to have safe and beautiful grounds.

ReadyClean™

Besides routine cleaning and disinfection, hand hygiene is a vital component in helping stop the spread of infectious diseases. State offers a wide selection of hand cleaners and sanitizers in both liquid and foam as well as durable, attractive dispensers for accurate and cost-effective dispensing. State also offers a complete line of industrial hand cleaners for the everyday maintenance shops.

State's Soap Factory® Pro is everything you need in a hand soap dispenser. Its attractive design features a neutral color, sleek lines and a textured, non-glaring surface. Soap Factory Pro is made to last. Constructed of durable ABS plastic, it provides unlimited usage with no signs of wear. Its leak-proof design eliminates mess and costly product waste. Soap Factory Pro dispenses both liquid and foam products.

State AquaBrute™ Aqueous Parts Washer

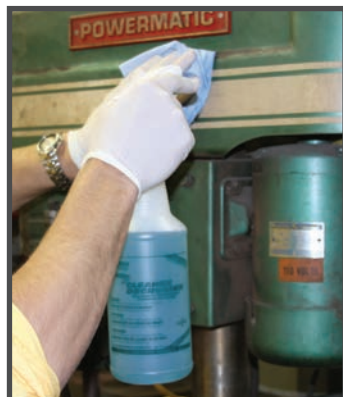

State AquaBrute™ Aqueous Parts Washer Fluid

For tough cleaning and degreasing jobs, you need a product that is high-performing, safe and cost-effective. State's line of industrial cleaners and degreasers offer all this and more. Concentrated solutions provide maximum economy and flexibility in application. Green certified formulas combine safety with performance. Your State Account Manager will help you select the perfect product for every industrial or shop-cleaning challenge.

Multi-purpose degreasers are the workhorse of your shop or manufacturing floor. Consider combining your degreaser with State's One Solution™ dilution system to gain dosage control, prevent product waste and protect your users from concentrated chemicals. If your organization has a green initiative, choose the amazing cleaning power of Ecolution® Pro Cleaner Degreaser.

If your shop is regularly cleaning machine parts, consider a Mark XX Parts Washer with Current Issue® cleaning fluid. This self-contained and self-cleaning system will give years of parts washing efficiency with little waste and no fluid replacement. For those smaller, critical cleaning jobs, choose from State's range of application specific aerosols. If your shop does a little bit of everything, your State Account Manager can custom mix a case of aerosols to create the right combination for you.

Maintenance shops require many different tools to repair and maintain equipment. Proper and high-performing maintenance products are also important. These products help save time, reduce labor costs and keep equipment running efficiently.

State offers a variety of products, from aerosol lubricants and penetrants, to bulk greases all to help maintain your facility. Whether you need fast-acting penetration to free stuck parts or long-lasting lubrication to keep equipment running, we have solutions to match your needs. Designed with the toughest conditions in mind, our products can withstand the every day demands of heavy-duty maintenance applications. Plus, we can put together an aerosol program where you select the products you need to handle the different issues you deal with every day.

Spray Adhesive

Special maintenance needs require special products. Leaky pipe repairs, quick spill containment and patching holes are all things that a maintenance department handles every day. Taking quick action can keep your occupants happy and your building operating efficiently.

State offers many products that can handle everyday repair emergencies. With products ranging from amalgamating wrap to powdered absorbent, we have a solution to your problem. Some of these products offer permanent economical solutions. Easily mix and match products needed for every imaginable problem with our FIX-IT kit.

Powder Dam (pg. 94)

Inter Lok 38™ (pg. 95)

UVP-1000™ (pg. 95)

Knock Out™

Aerosol Graffiti and Soil Remover

- Thickened formula clings to all surfaces
- Powerful formula perfect for tough soils
- Safe on most metals

18 OZ Aerosol/CS12

121710-12

Liqua Pads

Absorbent Pads for Spills

- Cleans up oil and chemical spills
- Made from two layers of heavy-duty polypropylene
- Can absorb spills in water without sinking or falling apart

Oil only/100 Pads

104547

All-Purpose/100 Pads

68003

RTV™

Silicone Adhesive/Sealant/Caulk/Gasket Maker

- Adheres to a variety of surfaces
- Formulated for high temperature applications
- Available in a red or clear formula

Aluminum

8 OZ Can/CS12

129490-12

Clear

8 OZ Can/CS12

44864

Red

8 OZ Can/CS12

44862

Make-A-Bond™

Double-Sided Adhesive

- Forms a strong bond on a wide variety of smooth surfaces
- Five-minute bonding time for perfect alignment
- Bonds to steel, plastic, rubber, paint, fiberglass and more

1 Roll/CS4

26017

Powder Dam™

Powdered Gel Absorbent

- Quickly congeals all liquids
- Absorbs 70 times its own weight
- Versatile; absorbs many different liquids, including body fluids

8 OZ Bottle/CS12
25 LB Pail

122644
127994

State® Custom Wipes™

Customizable wipes that you create using many of your favorite State products

- Convenient, customizable ready-to-use wipes that you create using many of your favorite State products, including the Custom Quart Package
- Use with a wide variety of State's chemical solutions
- The wipe of your choice ready within minutes

150 Substrate Roll Refill – EA
Large Canister/150 Substrate Roll-CS6

128886
128887

State Custom Wipes™ Leather & Vinyl Cleaner RTU

Leather and Vinyl Cleaner

- Ideal for vinyl and treated leather surfaces
- Cleans and restores dull surfaces
- Keeps surfaces protected from normal wear and tear

1 QT Bottle/CS12

128906*

*This product can only be purchased for use with State Custom Wipes.

Formuflex®

Clear Adhesive/Sealant with Ultra Violet Inhibitor

- Works indoors and outdoors, even on wet surfaces
- Can be used to insulate, prevent heat loss or seal out moisture
- Clear formula

5 OZ Tube/CS12

26031

REPAIR

Handy Seal™

Liquid Rubber Sealant

- Forms a long lasting, watertight seal so it is perfect for repairing leaks
- Sprays on easy, dries fast, paintable
- Available in black or clear

Black
12 OZ Aerosol/CS12

125171-12

Action Wrap®

Amalgamating Wrap

- Quickly forms a solid piece of rubber that shrinks into a waterproof seal
- Perfect solution for leaky pipes or electrical splices
- Dielectric strength of 36,000v

1" W x 30' Roll/CS4

26015

Inter Lok 38™

Hook and Loop Fastener

- Holding power and the reliability of mechanical fasteners
- Fast, easy connection
- Resistant to sun, UV rays and solvents

10' Roll

124425

UVP-1000™

Industrial Strength Repair Patch

- Cured by UV light
- All-weather, heat and chemical-resistant product
- Fiberglass reinforced so it can be used on any surface

6" x 9" Patch/CS6

126221

Metal Jacket™

Metal Parts Protector

- Non-sticky translucent protective coating
- Protects against flash rust and corrosion
- Coated parts can be welded, painted and stacked

12.5 OZ Aerosol/CS12

125747-12

**CUSTOM
CASE**

Spray Adhesive

Spray Adhesive Aerosol

- Fast drying
- 3-way web spray
- Resistant to heat, water, and moisture

In order to protect your fleet investment, routine care and maintenance are essential. State offers a wide range of vehicle maintenance products for any fleet, big or small. From high-performance vehicle wash, to detailing products, as well as brake cleaner and fuel additive, State has solutions to keep your vehicles looking great and on the road.

Ecolution® Car & Truck Wash is the environmentally preferred way to clean vehicles. The Green Seal certified formula contains special polymers to extend gloss and protect the vehicle from future dust build-up. Ecolution Car & Truck Wash is super-concentrated and designed for use with State's One Solution™ dilution system providing cost-effective, accurate and safe dispensing, helping to keep your vehicle fleet looking great.

(pg. 99)

VEHICLE WASH

Ecolution® Car & Truck Wash

Green Certified Vehicle Wash

- Effectively cuts through tough soils and added polymers help repel future dirt buildup
- Contains a special polymer to extend gloss
- Super-concentrated for economical use with State's One Solution™ dilution system
- Green Seal Certified (GS-53)

55 GL Drum	118934
20 GL Drum	118933
5 GL Pail	124700
1 GL Bottle/CS4	125589
3 L Bottle/CS4	118930

Enhance Plus™

Car and Truck Wash with Wax

- Concentrated formula powerfully cleans to remove tough soils and dilutes for economical use
- Leaves uniform wax that provides excellent sheeting action
- Does not contain silicone, so there are no streaks left on windshield and glass

55 GL Drum	103184
20 GL Drum	103185
1 GL Bottle/CS4	125583

F-160™

Concentrated Vehicle Wash

- Powerful formula removes soil, grease, gas, stains, oil, bugs and other deposits from vehicles
- Safe on all automotive surfaces including plastic, paint and chrome
- Super-concentrated for economical use with State's One Solution™ dilution system

55 GL Drum	122446
20 GL Drum	122445
1 GL Bottle/CS4	122444
3 L Bottle/CS4	122442

SPECIALTY MAINTENANCE

CAP®

Battery Cleaner and Protector

- Turns purple to detect battery acid leaks
- Leaves a coating to prevent corrosion
- Neutralizes battery acid

18 OZ Aerosol/CS12	121798-12
--------------------	-----------

CCC™

Carburetor and Choke Cleaner

- Quick cleaning action dissolves soils in seconds
- On-spot application to save time
- Leaves no residue that will attract dirt buildup

13 OZ Aerosol/CS12

121802-12

Dream Gleam™ Liquid

Tire Rubber and Vinyl Protectant

- Penetrates deeply into soft surfaces to restore appearance and soft feeling
- Repels dust and dirt, guards against damaging light rays and adds moisture resistance
- Use on tires, vinyl and many other surfaces

5 GL Pail

125570

1 QT Bottle/CS6

122376

Dream Gleam™ Protectant Aerosol

Rubber, Leather & Vinyl Protectant

- Protects tires, vinyl, rubber, plastic, and leather surfaces
- Long-lasting protection against dust, dirt, moisture, and UV exposure
- Foaming aerosol provides quick, uniform coverage

10 OZ Aerosol/CS24

121218-24

10 OZ Aerosol/CS12

121218-12

Dream Gleam™ Protectant Wipes

Leather & Vinyl Wipes

- For use on leather, vinyl, plastic & rubber
- Cleans and protects vehicle surfaces from drying, cracking, and fading
- Helps repel dust from surfaces

40 Wipe Canister/CS6

129753-6

40 Wipe Canister EA

129753

State Multi-Purpose Diesel Enhancer™

Multifunctional Diesel Fuel Additive

- Raises cetane levels to improve fuel economy and reduce exhaust emissions.
- Prevents problems associated with gum and sludge formation and extends storage periods.
- Provides additional lubricity to prevent pre-mature wear of components.
- Inhibits wax crystal growth and lowers CFPP by up to 30 degrees F.

State® WW Aeration System

State's comprehensive Wastewater Collections Program addresses common problems found in wastewater systems. Our commitment is to provide superior products and service, offering our customers cost-effective solutions to their problems. Our Circle of Service™ is our way of documenting the services we provide you, from the initial survey, to the install and full service support. We will put together the best possible program and solutions to solve your worst collection problems.

Many of our wastewater customers have problems with fats, oils and grease build-up in lift stations and lines. Our products can successfully breakdown and digest fats, oils and grease to help you avoid back-ups, emergency calls and premature wear on pumps. If your issue is hydrogen sulfide gas, we can address that too. Using products that benefit your wastewater process, not hinder it, we can put together a program to eliminate the hydrogen sulfide gas and stop the destruction of lines, manholes and lift stations.

In certain situations where fats, oils and grease build-up is heavy, adding aeration can help us deliver the results you need. The State® WW Aeration system will provide the extra agitation and oxygen our products need to get the job done.

Visit our wastewater website, www.statewastewater.com.

Boilers, cooling towers and HVAC loops are integral components to building and process operations. Scale, corrosion, fouling and microbiological contamination in these systems can lead to inefficient operation resulting in higher energy costs, potential equipment failure and possible health and safety concerns. Turn to State for the products, equipment and expertise to keep your systems operating at peak efficiency.

SuperCool™ is an ultra-concentrated scale and corrosion inhibitor treatment designed for cooling water systems. Nearly 15 times more concentrated than competitive products, SuperCool reduces chemical inventory and shipping costs and its compact three-liter packaging is easy to carry to remote locations and up ladders. State-of-the-art polymers and scale control ingredients achieve higher water savings through reduced cooling tower bleed.

StaWatch™ Cooling Tower Monitor Pro

Remote Monitoring and Control System

- Active chemical measurement and control of biocide feed and inhibitor products
- Remote inventory monitoring of product
- Total dissolved solid and conductivity settings
- Automated alerts reporting sent to your State Chemical rep on all chemical levels and system status
- Optimized when paired with State SuperCool Cooling Tower Traced Inhibitor
- Includes three chemical feed pumps

StaWatch Cooling Tower Monitor Pro EA1 128944

StaWatch™ Cooling Tower Monitor

Remote Monitoring and Control System

- Remote monitoring and control of cooling tower and biocide chemicals
- Total dissolved solid and conductivity settings
- Automated alerts reporting sent to your State Chemical rep on and system status
- Includes three chemical feed pumps

StaWatch Cooling Tower Monitor EA1 128943

StaWatch™ Steam Boiler Monitor

Remote Monitoring and Control System

- Provides peace of mind with a 24/7 conductivity and chemical injection relay monitoring system
- Enables remote monitoring and control of TDS/conductivity levels
- Tracks chemical feed relay performance for optimal system balance
- Delivers automated alerts and customized reports directly to your State representative

StaWatch™ Steam Boiler Monitor EA1 129439

COMPATIBLE INHIBITOR PRODUCT

State SuperCool™ Cooling Tower Traced Inhibitor

Cooling Tower Treatment

- Controls scale, corrosion and sludge in evaporative cooling towers to maintain design efficiency
- Tracing capability allows for accurate 24/7 program monitoring with State StaWatch™ Cooling Tower Monitor Pro
- Provides waters saving by allowing cooling towers to operate at optimal levels

125784

Bio-Bully™

Concentrated Dry Microbiocide

- Bromine-based formula is more effective than bleach in typical cooling system pH levels
- Fast-dissolving granules deliver bacterial control instantly
- Microorganisms will not buildup resistance to Bio-Bully because of its strong oxidizing properties

50 LB Pail

117511

ACC®

Foaming Aerosol Evaporator Coil Cleaner

- Non-acid, self-rinsing formula foams and penetrates into coils to remove dirt and buildup
- No scrubbing or rinsing necessary, allowing the unit to be returned to service quickly
- Pleasant citrus fragrance is different from harsh acid cleaners

18 OZ Aerosol/CS12

121694-12

Coil Commando™

Foaming Alkaline Coil Cleaner

- Powerful alkaline formula removes oxidation, grease and dirt from air conditioning coils
- Brightens weathered aluminum and restores it to a bright, shiny luster without streaking
- Concentrated formula can be diluted for economical use

20 GL Drum
1 GL Bottle/CS4

122393
122392

Ecolution® Coil Cleaner

Environmentally Preferred Coil Cleaner

- Neutral pH formula is safe on all metals and makes application much safer than traditional acids
- No fragrance or heavy chemical odors make this ideal for healthcare settings
- Powerful blend of surfactants cuts through tough buildup to clean coils and restore unit efficiency

1 GL Bottle/CS4

119962

Sta-Clean® Tablets

Water Conditioning Drip Pan Tablets

- Prevents accumulation of contaminants and inhibits buildup of corrosion and mineral deposits
- Keeps drain lines open and condensate drip pans clean
- Treatment lasts up to three months for economical protection

300 Count

37198

Acidine®

Boiler/Cooling Tower Scale and Corrosion Remover

- Acidic cleaner
- Removes rust, scale and lime deposits
- Does not harm surfaces and protects iron and copper alloys

55 GL Drum
20 GL Drum

125319
18041

Nonfood Compounds
A1

De-Foam® F-250

Concentrated Foam Reducer

- Phosphate-free formula
- Can be used in hot or cold systems
- Effective on typical foam caused by elements such as grease, fats, detergents, oils and wastes

55 GL Drum
5 GL Pail
1 GL Bottle/CS4

25492
113398
125597

Dredge™

Cooling Tower Cleaner

- Removes organic matter from cooling tower basins and piping
- Keeps contaminants in suspension, where they can be safely drained
- Ensures clean start-up at the beginning of the cooling season

20 GL Drum
5 GL Pail
1 GL Bottle/CS4

125007
125008
120083

F-732™ Descaler

Safer Handling Acid Cleaner and Descaler

- Dissolves the toughest lime water scale, mud and rust deposits
- Biodegradable, non-flammable, non-corrosive and contains no VOC's
- Equipment runs more efficiently and economically

55 GL Drum
20 GL Drum

106444
121435

WATER TREATMENT

Mudd-Slide™

Neutral pH Hard Water Scale Remover

- Sludge and mud control product
- Removes hard water deposits
- Should be used with State's chemical cooling and boiler products

5 GL Pail
1 GL Bottle/CS4

116127
125588

Nonfood Compounds
A1

NARC™

Non-Acid Rust Cleaner

- Quickly removes rust in closed heating and cooling water systems
- Eliminates need to neutralize cleaning solution for disposal
- Restores system energy efficiency

5 GL Pail

124874

Quick Pass™

Powerful Corrosion Inhibitor

- Creates a film on steel surfaces
- Quickly and completely protects against corrosion
- Ideal for cooling tower and closed loop systems after cleaning

55 GL Drum
1 GL Bottle/CS4

123727
120084

Res-Clean II™

Resin Cleaner

- Restores and maintains full resin capacity
- Reduces salt consumption
- Contains powerful cleaners and chelants to reliably restore iron-fueled resin

5 GL Pail

123635
